Purpose and success checks

How can I explain my product and a reasoned improvement?

I can explain my product and a making step. I can link an improvement to a real result. I can hear a question and respond.

LAUNCH-DT-W6-E1: An accessible product presentation with authentic purpose/process/result, a reasoned proposed improvement, actual audience question and learner reply, with mode/support recorded.

Before pupils arrive

Retrieve W5 process record, model and test sheet. Agree an adult or willing peer audience and an accessible mode. A roughly one-minute explanation is a guide, not a timing gate. No new practical test or recording device is required.

Offer processing time, a quiet start and the usual communication support. Capture each learner’s own work. Read the Staff Answers before teaching.

Calendar and continuity

Monday 7–Friday 11 December 2026. One lesson per week on this line. No teaching day or clock slot is inferred.

Staff enter the actual teaching date above. Continue the accepted prior-week evidence and support routines.

Forty minute sequence

Slide	Min	Action
1	0	Open title and big question before timing.
2	4	Private check-in, quiet start and support choice.
3	2	Read the diagram; hear one clue or question.
4	0	Read the exact objective and success checks.
5	5	Model the six lines; explain the reason for each.
6	5	Ask for a hinge answer and reason; reteach if needed.
7	12	Use the six cards and the Supported/Independent/Aspire routes.
8	6	Complete the individual two-page evidence record.
9	4	Check ownership, support, response and next step.
10	2	Take a short quiet exit response.
11	0	Use the vocabulary mat throughout.
12	0	Hidden reference for adults.

Hinge and reteach

B. An improvement is a reasoned proposal until it is checked. A and C overclaim strength. Ask the learner to link the proposal to an observed result, then say how a later comparable test could check it. No new load test is required in this lesson.

Access and practice

Supported: use the sentence frames with staff. Independent: include purpose, result and change. Aspire: answer a question about a fair retest.

Model a short explanation with an adult sample clearly labelled. Pupils prepare their own outline, present to the chosen audience and receive a genuine question. Record actual words/mode and the learner reply.

Begin evidence during practice and finish during capture. Accept speech, pointing, drawing, writing or usual AAC. Scribe exact words without supplying the assessed reason. No forced pair work or public performance.

Safe teaching evidence and learner voice

Boundaries

No forced group presentation or video. Share work-only records under local rules. A question can be answered with “I need to check”. Do not use public uploads or personal accounts.

Assessment and feedback

Require product purpose, one actual making step with support, real test observation or honest not-tested statement, and a linked improvement. Record the real audience and exchange. Accept quiet one-to-one, notes, pointing or AAC. A prepared script without an audience exchange is preparation, not evidence of a delivered presentation.

Retain actual work, response mode and support. Use VF · WS · I · NS+ · // (self-edit) · ? (read back) · R (responded) · E (evidence in the school's evidence record). R requires Voice, Audience, an NS+ prompt and the learner’s response in the same colour, on the same page or usual mode. Record E only after evidence is banked. Blank forms and adult models are not completed learner evidence.

Lundy moments

Space: calm, accessible participation. Voice: a choice, reason or help request. Audience: the adult listens or reads and replies. Influence: record the support or next-step change made in response.

Speaking listening and writing

Present an explanation, listen to a question and give a reasoned response; receiving staff map authentic evidence to their own portfolio. The receiving teacher maps authentic responses to their own portfolio; no communication criteria are assigned here.
