# Staff answers and cover notes

### Exact outcome

Identify features of positive friendships and relationships.

### Meaning

A positive friendship has care and respect. People can have different likes and other friends. They listen, ask before sharing and respect a no. One kind act does not prove that every part of a friendship is safe.

### Using the flag labels

Green flag means this action shows care or respect. Amber flag means pause, check what happened and ask for help if needed. Judge the action and its context, not a whole person. Amber never means put up with harm. If someone feels unsafe, get a trusted adult at once; do not wait to finish a sort. These two labels are learning prompts, not a safety test.

## Behaviour sort answers

| Card | Flag | Reason |
|---|---|---|
| 1 | Green | They respect choice and the person's work. |
| 2 | Green | They respect a need and give space. |
| 3 | Green | They respect different likes and other choices. |
| 4 | Amber | Both people need a chance to choose. Pause and ask for a fair plan. |
| 5 | Amber | They ignore a clear choice. Stop the sharing and ask a trusted adult for help. |
| 6 | Amber | A sorry needs a change in action. Ask a trusted adult for help if it continues or feels unsafe. |

Accept a reasoned safe interpretation that fits the stated action. Do not infer a whole person is safe from one green action. Card 5 ignores a clear no and needs adult support; do not treat amber as harmless.

# The scene and learning checks

## Choosing a shared activity

Two invented young people plan a quiet craft task. One asks to use a drawing. The other says no. The first person accepts this and chooses a new idea. Later one keeps choosing each next step without asking. The other wants a fair turn to choose. No names, personal details or unkind words are shown.

## Visible model

Accepting no is a green flag because it respects choice. Choosing every step without asking is an amber flag because both people need a say. They could pause and agree a turn each, or ask school staff to help. Judge each action; one green action does not cancel the amber concern.

## A respectful next step

They could say, Can we each choose one step? If that is not respected, they can stop the task and ask trusted school staff in private.

## Equal demand

Map B and note C both identify one green and one amber action with reasons, a respectful next step and a trusted adult help route. A map needs no art skill and a note needs no extra length. Both use the same invented scene. Keep model and usual aids available while recording actual content help.

## Main and parallel hinge

Main B. A wrongly treats one kind act as proof. C labels the whole person. D removes choice. Re-model with the invented scene then use parallel A: pause for a fair turn or trusted adult help. A pass is unobserved. Check privately using the usual response mode.

## Misconceptions and repair

Green means an action shows care or respect, not that every action is safe. Amber means pause, check and ask for support if needed; it never means put up with harm. A friendship allows different likes, other friends and a no. One positive action cannot cancel a concern.

# Evidence and safe delivery

## Judgement

Judge action knowledge and a respectful help route from fictional work. Retain partial evidence and actual prompts. Usual aids, typing and exact scribing do not supply answers. Log adult answer choices or models as content help. Do not judge personal wellbeing or whether any real friendship is safe.

## Review and exit

Improve Green means every action is safe. Exit can suggest a respectful next step or repair Amber means harmless. The self-check concerns learning only. Give one NS and keep the actual pupil reply.

## Private keep card

What a good friend does is an optional keep card for a helpful action to remember. It stays with the pupil. Use the invented scene, leave it blank or pass. No real friend, relationship, name or experience is requested. Do not collect, photograph, display, compare or copy it into evidence. An agreed scribe returns it to the pupil.

## Cover fallback

Read supplied cards aloud with usual aids if display fails. Use books or the typed route without a live account, internet or real examples. Do not ask about personal relationships or require public answers. Follow immediate school procedures for an unsafe concern.

## Feedback

Retain actual fictional learning evidence, usual access and content prompts. Set one NS and allow a reply in the same colour, on the same page or usual mode. E only for actual saved work. R only after Voice, Audience, one NS and an actual pupil response. Offer to the Communication portfolio; staff confirm any mapping. Personal keep cards and real concerns are not learning evidence. Any offer for the unit award depends on staff checking actual evidence and current requirements.

## Private help

Ask a trusted adult or school staff in private. Use words, a note, HELP or a usual aid. Staff can take a concern to the safeguarding lead through school procedure. If one adult is unavailable or help is not enough, ask another trusted adult. For an immediate safety concern, get adult help at once. No named service, organisation, website or phone number is needed.

## Discreet step out

Before teaching, agree the discreet HELP or PAUSE signal and familiar supervised place and route. Staff acknowledge it quietly and keep adult support. No public reason is needed. Offer a neutral task, supported return or private catch-up. Do not send a learner away alone. Pass is not failure.

## Safeguarding

Any disclosure goes to the safeguarding lead through school procedure. Listen calmly, reassure, do not probe, investigate or promise secrecy. Follow urgent school procedures for immediate concerns. Keep real concerns and identifying details in the separate safeguarding record, not learning evidence. A pupil unable to identify a trusted adult is supported privately, not pressed.
