Staff answers and checks

Autumn 2 · Week 2 · Lesson 1 · Monday 9 November 2026

Arrival

Finger tap, nod, pointer or another comfortable timed movement. No sound is required.

The pupil identifies all four positions in order.

A raised flat hand or the agreed printed STOP cue. Check pupils can see it.

Four movements with roughly equal time gaps. A missed attempt is diagnostic; model again without judgement.

Starter

B. Beats two and four are full quiet rests. A and B both keep the same four even beat spaces. Do not treat B as unsteady because it has fewer sounds.

Guided practice

All four beat positions continue at the same pace. In B, sounds occur on 1 and 3; 2 and 4 are silent full beats. Use a visible pointer or nod to show the pulse. Do not count the two sounds as two beats.

Exit

An even pulse, with the same gap between beats. Accept a demonstration.

Stay quiet for one whole beat while the pulse continues.

After four even counts, tap on 1 and 3 and keep 2 and 4 quiet. Note the actual support and next step.

Accept pointing, quiet movement, speech, signs, drawing and checked scribing. Check the actual beat positions and part; participation alone does not show that a pulse or part was learnt.
