The aim

I can use my ICT skills to make and check a clear kit update.

Steps

1. Use one step of the brief at a time. Point to the source you will use.
2. Check the starter inputs. Work out each row with a formula, then the whole total.
3. Make a chart of the three row totals. Leave the whole total out.
4. Use the paragraph frame in a document with a title and heading.
5. Update one slide. Add a chart description and check its object order.
6. Save and reopen. Record your evidence and all help used.

In your book or private file

I used source ... because ... . My formula ... works out ... . The chart shows ... . I made ... easier to use by ... .

Success

[ ] I used the right source and checked my results.
[ ] I made clear files for the reader.
[ ] I gathered evidence and recorded the help I used.

Support record

I used ... . I did ... on my own. The adult helped with ... . A route name does not prove independence.
