Purpose and success checks

How can I ask for the help I need?

I can spot when help is needed. I can say or show a clear help request. I can choose a backup if help is delayed.

GROW-PSHE-W4-E1: An individual case-based help request naming who, how and when, with a backup route, actual adult reply and learner response.

Before pupils arrive

Print cards and Evidence Sheets. Identify the available adult, backup and quiet help location before teaching. Provide pens, a help card and any usual AAC. Use scripted practice only; no real phone call is made.

Offer processing time, a quiet start and the usual communication support. Capture each learner’s own work. Read the Staff Answers before teaching.

Calendar and continuity

Monday 23–Friday 27 November 2026. One lesson per week on this line. No day or clock slot is inferred; staff enter the actual date above. Use prior vocabulary and the established private-help routine.

Forty minute sequence

Slide	Min	Action
1	0	Open title and big question before timing.
2	4	Private check-in, quiet start and support choice.
3	2	Read the diagram; hear one clue or question.
4	0	Read the exact objective and success checks.
5	5	Model the six lines; explain the reason for each.
6	5	Ask for a hinge answer and reason; reteach if needed.
7	12	Use the six cards and the Supported/Independent/Aspire routes.
8	6	Complete the individual two-page evidence record.
9	4	Check ownership, support, response and next step.
10	2	Take a short quiet exit response.
11	0	Use the vocabulary mat throughout.
12	0	Hidden reference for adults.

Hinge and reteach

C. Ask another trusted adult, particularly if the need is urgent. For an ordinary task query, agree a short time to return; a danger or safety worry must not wait for an appointment. Rehearse the words “I need help now” or a pointed help card.

Access and practice

Supported: try A and C with an adult. Independent: choose who, how and when. Aspire: explain a backup if help is delayed.

Sort A–F by task help, private safety help, alternative communication, backup or emergency. Rehearse one request with an adult or alongside a peer. The adult replies to the request; the learner checks or tries the next step.

Begin evidence during practice and finish during capture. Accept speech, pointing, drawing, writing or usual AAC. Scribe exact words without supplying the assessed reason. No forced pair work or public performance.

Safe teaching evidence and learner voice

Boundaries

Use fictional cases and the right to pass. Do not ask pupils to disclose abuse, private messages or family concerns in class. Follow local safeguarding procedures for any real concern. No acted collapse, physical first-aid practice or live emergency call forms part of this lesson.

Assessment and feedback

Task help: ask for the unclear step. Safety concern: tell a trusted adult promptly and privately. Unconscious person: emergency help/999 now. Accept speaking, a note, pointing or AAC. Retain the learner’s request and the real adult reply in the classroom practice, without claiming that a fictional emergency occurred.

Retain actual work, response mode and support. Use VF · WS · I · NS+ (Yellow Box) · // (self-edit) · ? (read back) · R (responded) · E (evidence in the school's evidence record). R requires Voice, Audience, an NS+ prompt and the learner’s response in their own colour. Record E only after evidence is banked. Blank forms and adult models are not completed learner evidence.

Lundy moments

Space: calm, accessible participation. Voice: a choice, reason or help request. Audience: the adult listens or reads and replies. Influence: record the support or next-step change made in response.

Speaking listening and writing

Make a clear request, listen to a reply, ask for clarification and record a short next step. The receiving teacher maps authentic responses to their own portfolio; no communication criteria are assigned here.
