Staff answers and response guide

Show how I keep safe and well

These are possible responses and task guides, not learner observations. Accept a defensible answer based on the facts or actual work. Record each learner's reasoning and support.

Card key

Card	Judgement or step	Possible action
A	Unsafe request. The person asks for private information.	Do not share it; ask a trusted adult.
B	Backup route. Another help route is available.	Ask the available staff member.
C	Helpful step. Jo asks for agreed support.	Agree a calm pause and a return step.
D	Unsafe request. A harmful secret blocks help.	Tell another trusted adult.
E	Barrier. The way instructions are given is hard to use.	Ask for short steps or a visual guide.
F	Clarify. The next step is unclear.	Ask for a clear step or another help route.

Model and hinge

In our made-up case, Kit gets a prize link. The sender says: click now and keep it secret. Kit spots pressure and does not click the link. Kit tells the class adult; the office is a backup. Kit asks for a quiet pause, then checks the next step. Kit keeps a choice and reason as their own work.

C. A blank form does not show a learner response. Retain real choices, reasons, help routes and the support given. Reteach using an adult example clearly labelled as a model, then collect a new learner-owned response.

Individual evidence key

Require each core case A–C, a first adult and backup with access routes, and one wellbeing step/reason. Accept accessible response modes and record prompts. Reuse authentic W3/W5 work only after checking it remains current and adding the review. Label fictional network practice accurately. Bank actual work; leave gaps visible.

Feedback boundaries and next teaching

Card A: Core assessment: accept a specific clue and safe action.

Card B: Core assessment: name how the backup can be reached.

Card C: Core assessment: explain how the support could help wellbeing.

Card D: Optional transfer case; do not invite personal accounts.

Card E: Optional transfer; ask the person what helps.

Card F: Optional transfer; retain the learner's own phrasing.

Common misunderstandings

A completed adult model is not pupil evidence. E means actually banked. A safe choice reduces risk; it does not make harm the learner's fault. Do not infer an award or completed criterion from this task.

Teaching boundary

No forced disclosure. Personal networks use roles and are checked privately. Assess choices and reasoning, not personal experiences. Separate safeguarding information from learning evidence.

Feedback

If a reason is missing, return to the fact or actual work. Re-model a different example, then keep the learner's own revision. Use NS+ and the learner response in their own colour before R. E means evidence actually banked. Keep safeguarding records separate.

Assessment boundary

GROW-PSHE-W7-E1 contributes to the source assessment. No criterion, registration or award completion is invented. Sources: FACTS_LEDGER.md.
