Purpose and success checks

How can I make my answer clearer?

I can answer a practice question. I can use a true example of a skill. I can use feedback to try my answer again.

CAREERS-LAUNCH-A2-W4-E1: A record of an actual classroom mock-interview exchange: question, authentic initial answer, specific feedback, learner-owned retry, response mode, support and next step. Unattempted questions and missing responses remain visible.

Before pupils arrive

Print the role brief, three questions, feedback stems and evidence sheet. Bring a prior CV or application only if it exists; otherwise record the gap and elicit a true class example. Arrange a quiet adult option and usual communication supports. There is no visitor, real recruiter, recording device or external booking.

Offer processing time, a quiet start and the usual communication support. Capture each learner’s own work. Read the Staff Answers before teaching.

7	12	Use the six cards and the Supported/Independent/Aspire routes.
8	6	Complete the individual two-page evidence record.

12	0	Hidden reference for adults.

Hinge and reteach

B. A clarifying question supports an accurate answer. A and C do not show authentic understanding or experience. Model “Please explain what you mean by that.” Recheck with a new question. Accept an accessible equivalent through pointing, writing or the learner’s usual communication support; do not assess eye contact, speaking speed or handwriting as job readiness.

Access and practice

Supported: practise one question with an adult. Independent: take turns with three questions. Aspire: answer a follow-up and give a reason.

Read the fictional role and model one answer. For 12 minutes, use the three question cards in an adult-led or willing pair exchange; offer one question as a supported entry. Give one specific prompt after the first answer and allow a retry. Each learner keeps their own two-page record. The six-minute capture preserves real words, support, response and any unattempted question. Do not fill gaps from the adult model.

Begin evidence during practice and finish during capture. Accept speech, pointing, drawing, writing or usual AAC. Scribe exact words without supplying the assessed reason. No forced pair work or public performance.

Safe teaching evidence and learner voice

Boundaries

Use learner ID and role labels. Do not ask about private health, family, contact details or personal trauma. No forced pair work, eye contact, handshake or filmed performance. The learner may pause, use notes or usual communication support. Record actual participation and any gap, without inferring confidence, ability or attainment from speaking style.

Assessment and feedback

The core evidence is an actual question-and-answer exchange and feedback response, not merely a completed script. Record the question and exact words or a faithful work reference. Check the example is authentic and relevant to the fictional role. Preserve the first answer, a specific feedback prompt and the learner's retry. If no retry occurs, record not yet and the planned support. Week 4 is formative rehearsal; Week 7 is the assessing lesson. No job offer or award completion is claimed.

Retain actual work, response mode and support. Use VF · WS · I · NS+ (Yellow Box) · // (self-edit) · ? (read back) · R (responded) · E (evidence in the school's evidence record). R requires Voice, Audience, an NS+ prompt and the learner's response in their own colour. Record E only after evidence is banked. Blank forms and adult models are not completed learner evidence.

Learner voice

Space: calm, accessible participation. Voice: a choice, reason or help request. Audience: the adult listens or reads and replies. Influence: record the support or next-step change made in response.

Offer to the Communication portfolio

Listen to a question, ask for clarification, give a relevant answer and respond to specific feedback. The receiving teacher maps authentic responses to their own portfolio; no communication criteria are assigned here.
