I can make a clear document with a title, headings and short paragraphs.

A model-making group

Who can join

Beginners can join. No skill is needed yet.

What we do

We sketch ideas. We build paper models.

I used a title for the whole page.

I used two main heading styles.

I grouped facts in two short paragraphs.

I checked my facts and full stops.

I reopened my saved file and checked the text.

Use title and heading styles to give text a role. Keep body text left aligned. Use one topic per paragraph. Read the page before you share it.
