

Food Groups

Autumn 1 · Lesson 1 · How can we sort ingredients and plan a snack together?

Name (optional): _____ Date: _____

Show your ideas by writing, drawing, pointing or speaking. An adult can record your words.

1. Sort the ingredients

Draw lines, write group names or tell an adult. Use these groups: fruit and vegetables; starchy foods; protein foods; dairy and alternatives; oils and spreads.

- Bread
- Rice
- Apple
- Carrot
- Lentils
- Egg
- Milk
- Sunflower oil

2. What is inside the wrap?

A pretend wrap contains the ingredients below. Match each to a food group. Name or point to two groups in the same wrap.

- Bread wrap
 - Chickpeas
 - Lettuce
 - Yoghurt
-

APPLY AND IMPROVE / BUILD_FOOD_W1

My learning record

Lesson 1 · Continue your thinking

3. Work with a 100p budget

Kai has 100p. Choose two different items from the pretend shop. Name their groups and find the total. Explain one thing your partner checked.

- Bread roll: 50p
- Apple: 30p
- Yoghurt: 40p
- My two items and groups:
- Total cost: ____ p. Money left: ____ p.
- Our checking job was: ____

Useful words

ingredient: One of the foods used to make a dish. / food group: A way of putting similar foods together in the Eatwell Guide. / combination food: A dish made from ingredients from different groups. / budget: The amount of money available to spend.

Exit check

Point to the group for milk. Can a sandwich include more than one food group?

My next step

One thing I can practise or improve:

Adult record: response method _____ support _____ evidence _____

A Balanced Plate

Autumn 1 · Lesson 2 · How can a team plan a varied meal and stay within a budget?

Name (optional): _____ Date: _____

Show your ideas by writing, drawing, pointing or speaking. An adult can record your words.

1. Name the groups inside each dish

Use these group names: fruit and vegetables; starchy foods; protein foods; dairy and alternatives; oils and spreads. Draw lines, write or tell an adult.

- Porridge ingredients: oats and milk.
- Jacket potato ingredients: potato and beans.
- Sandwich ingredients: bread, cheese and cucumber.

2. Design a pretend café meal

Spend 120p or less. For this design brief, choose one starchy option, beans, and one vegetable option. Add the cost; water may be included. These are invented portion prices.

- Starchy option: rice 40p OR bread roll 50p.
 - Protein option: beans 40p.
 - Vegetable option: tomatoes 30p OR carrots 30p.
 - Drink option: tap water 0p in this exercise.
 - My ingredients and groups:
 - Total: ____ p. Money left from 120p: ____ p.
 - Planner checked: _____. Cost checker checked: _____.
-

My learning record

Lesson 2 · Continue your thinking

3. Find variety across an example day

This is a fictional menu, not a diary to complete about yourself. Match the ingredients to the five groups. Explain whether every meal needs all five.

- Sam's breakfast example: porridge made from oats and milk.
- Sam's lunch example: rice, beans and tomatoes.
- Sam's later-meal example: soup containing potato, lentils, carrots and a little rapeseed oil.
- Which ingredient represents oils and spreads?
- Does each separate meal need all five groups? Yes / No. Explain or point.

Useful words

variety: A range of different choices. / plan: Decide what to do before starting. / combine: Put ingredients together. / balance: Looking at the range of food groups across a day or week.

Exit check

Give one reason for a choice in your café plan. Does every meal need all five groups?

My next step

One thing I can practise or improve:

Adult record: response method _____ support _____ evidence _____

Reading Labels

Autumn 1 · Lesson 3 · What do labels tell us before we choose or use an ingredient?

Name (optional): _____ Date: _____

Show your ideas by writing, drawing, pointing or speaking. An adult can record your words.

1. Find the information

Use fictional Label A below. Circle, point to or copy: the highlighted allergen; the use-by date; where to store it; and what the label says after opening.

- FICTIONAL LABEL A: Creamy tomato soup. Teaching extract, not a real product or a complete retail label.
- Ingredients: water, tomatoes (40%), potato, cream (MILK), onion, rapeseed oil, salt.
- Use by: 8 October 2026. Keep refrigerated at 5°C or below. Once opened, use within 24 hours and before the end of the use-by date.
- Pack size: 400g. Illustrative price: £1.20. Salt: 0.60g per 100g; 1.20g per 200g portion.

2. Choose the next action

Read these fictional cases. For each, say whether the key issue is a safety date, a quality date or storage. State an adult-check action. No tasting is part of this task.

- CASE 1. Pretend today is 9 October 2026. Soup A has stayed refrigerated and has not been cooked or frozen. Its use-by date is 8 October 2026. It smells normal.
 - CASE 2. Pretend today is 9 October 2026. Unopened plain crackers say “Best before 8 October 2026. Store in a cool, dry place.” The packet has stayed dry and is intact.
 - CASE 3. Pretend today is 7 October 2026. Soup A says “Keep refrigerated at 5°C or below” but has been left on a warm table overnight. Its use-by date is tomorrow.
-

My learning record

Lesson 3 · Continue your thinking

3. Make a fair comparison

Use the two fictional teaching labels. State which has less salt per 100g, which costs less for a 400g pack, and why neither comparison settles allergy suitability.

- Label A: 400g pack; £1.20; salt 0.60g per 100g; salt 1.20g per 200g portion; ingredients include MILK.
- Label B: 400g pack; £1.00; salt 0.30g per 100g; salt 0.90g per 300g portion; warning: May contain CELERY.
- Compare the same line: salt per 100g on both labels.
- Optional: are 200g and 300g portions the same measure?
- A fictional customer has a celery allergy. What must you do before choosing B for them?

Useful words

allergen: Something that can cause an allergic reaction in a person who is allergic to it. / use-by: A date used for food safety. / best before: A date used for food quality. / per 100g: The amount in 100 grams, used for a like-for-like comparison. / storage: How and where a product must be kept.

Exit check

An unopened chilled pot says “Use by yesterday”. It was never cooked or frozen. It smells normal. What should you do?

My next step

One thing I can practise or improve:

Adult record: response method _____ support _____ evidence _____

Kitchen hygiene and safety

Autumn 1 · Lesson 4 · How can we make our kitchen ready?

Name (optional): _____ Date: _____

Show your ideas by writing, drawing, pointing or speaking. An adult can record your words.

1. My ready routine

Show or tell an adult. Tick only actions observed today.

- Hair/clothes safe and apron on.
- Hands washed with soap, rinsed and dried.
- Surface, board and tools checked.

2. Fix a hazard

Choose the next safe action for each situation.

- Touched nose before preparing fruit.
- Knife hidden in washing-up water.
- Used yoghurt spoon offered to someone avoiding milk.

My learning record

Lesson 4 · Continue your thinking

3. Explain a rule

Finish two sentences, or demonstrate and tell an adult.

- We wash hands because...
- We stop and ask about an unfamiliar ingredient because...

Useful words

hygiene: Actions that help keep food and equipment clean. / hazard: Something that could cause harm. / cross-contact: An allergen moving from one food or surface to another. / supervision: An adult checking and supporting the activity.

Exit check

Does a clean-looking tool prove it is ready for everyone?

My next step

One thing I can practise or improve:

Adult record: response method _____ support _____ evidence _____

Prepare a snack and drink

Autumn 1 · Lesson 5 · How can we prepare a snack and drink as a team?

Name (optional): _____ Date: _____

Show your ideas by writing, drawing, pointing or speaking. An adult can record your words.

1. My make

Draw, label or dictate your snack and drink.

- Fruit pot ingredients: banana, mandarin, yoghurt.
- Separate oatcake.
- Cup of measured water.

2. Measure and check

Complete or point to the matching amount and tool.

- Yoghurt: 50 g or 50 ml? Scales or cup?
- Drinking water: 150 ml or 150 g? Measuring jug or plate?
- The dish is already on the scales. What do you press before adding food?

My learning record

Lesson 5 · Continue your thinking

3. Read, do, check

Put these recipe actions in order. Then name your team job.

- Add measured yoghurt and keep the oatcake separate.
- Complete the hygiene and label routine.
- Measure 150 ml water and pour it.
- Prepare and weigh the fruit.

Useful words

assemble: Put prepared parts together. / portion: An amount served for one person or task.
/ measure: Find an amount using a tool and unit. / ingredient: A food used in a recipe.

Exit check

Does a successful lesson require tasting?

My next step

One thing I can practise or improve:

Adult record: response method _____ support _____ evidence _____

Plan a meal to a brief

Autumn 1 · Lesson 6 · How can we plan a meal that fits a practical brief?

Name (optional): _____ Date: _____

Show your ideas by writing, drawing, pointing or speaking. An adult can record your words.

1. Plan one fictional lunch set

Choose or draw the stated components and label the ingredient groups.

- Wrap: 1 tortilla, 40 g chickpeas, 30 g cucumber, 15 g soft cheese.
- Sides: 1 apple and 1 plain yoghurt pot.
- Name two food groups represented.

2. Check the budget

Use illustrative prices: wrap 70p, apple 30p, yoghurt 25p.

- Total cost = ____ p or £ ____.
 - Limit = £1.50. Money remaining = ____ p.
 - If an approved alternative yoghurt costs 40p, new total = ____ p.
-

My learning record

Lesson 6 · Continue your thinking

3. Evaluate the plan

Mark met, not yet or need evidence. Then name a next action.

- Kai's fictional plan has a wrap, apple and yoghurt. Cost calculation: £1.25.
- The written order says label/hygiene check, prepare wrap, serve or cover/chill.
- The actual yoghurt label is missing. Can making begin?

Useful words

plan: Decide steps and resources before making. / budget: The money limit for a task. / component: One part of the meal. / evaluate: Check a plan or product against its brief.

Exit check

Does staying within budget prove that a food plan is safe?

My next step

One thing I can practise or improve:

Adult record: response method _____ support _____ evidence _____
