

Career development: where am I now?

How do evidence, choices and circumstances shape a career journey?

I can explain how careers develop over time and record my current aspirations and uncertainties.

Use your own safe examples or the fictional case. Share only what you choose.

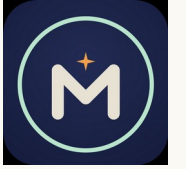

Words that help

CAREER DEVELOPMENT

How learning, work and decisions change through life.

ASPIRATION

Something a person may want to achieve or explore.

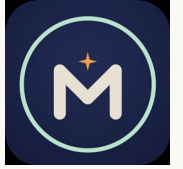

Start here

“Your first job decides your whole career.” Agree or disagree?

What information might change a career plan?

Give a reason; do not share personal history unless you choose.

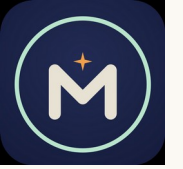

A route can develop

A career is broader than one job or qualification.

A change of direction is not automatically failure.

A good enquiry asks what evidence is missing.

Does a case study prove that a route is available to everyone?

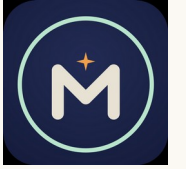

Compare Jamie and Morgan

Jamie: practical learning → apprenticeship → trade work → supervision and further learning.

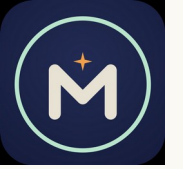

Morgan: art and college → retail work while learning design tools → junior design work.

Both are fictional illustrations, not recommended or guaranteed routes.

Compare Jamie and Morgan — continued

What changes, and what seems to continue?

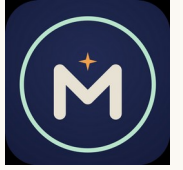

Trace evidence and unknowns

Jamie undertakes more training after starting work.

Morgan combines a job with learning another skill.

Neither card states pay, age, provider or guaranteed entry criteria.

Write one supported comparison and one unknown.

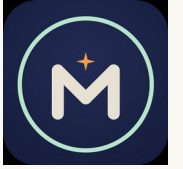

A useful enquiry question

A: “Will I definitely be successful?”

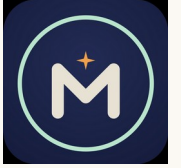

B: “What tasks and training does this role involve?”

Which question can guide an investigation?

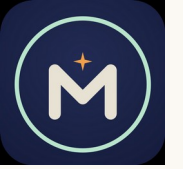

Your three tasks

1. Compare the two journeys: Use the full Jamie and Morgan cards.
2. Make a starting-point record: Choose personal reflection or analyse Morgan as a fictional case.
- 3. Set an enquiry question: Record an idea, an uncertainty and a question that could change your thinking.**

Your three tasks — continued

Use the worksheet and resource cards. Work one task at a time.

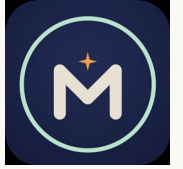

Check and improve

I can compare two changing career journeys.

I can separate stated evidence from an assumption.

I can record an aspiration or uncertainty and a useful enquiry question.

Choose one part to make clearer. Which detail supports your answer?

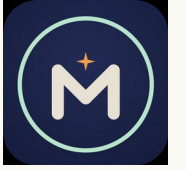

Save your evidence

Career-readiness baseline, aspiration record and enquiry question.

Mark the work: my own example / fictional case analysis.

Keep one question open for your next lesson.

Which piece shows today's learning?

Exit check

Explain one reason careers can change and write one investigable question.

Answer using words, pointing, a sketch or a private adult conversation.
