

Belonging Briefing

I can present a concise claim, mapped example, source evidence, qualification and belonging explanation.

[Open the original interactive lesson](#)

Adult confirms the viable W13 presentation mode and audience access route chosen after W12.

Standard

Turn your W12 comparison into one sentence an audience could repeat.

How can I communicate a careful map-and-source finding so an audience can restate it accurately?

Enquiry

CLAIM · ANSWER THE ENQUIRY

Start with the answer, not the story.

MAP · LOCATE THE EXAMPLE

One pin, one documented example.

SOURCE · NAME THE EVIDENCE

Evidence has a maker and a date.

LIMIT · PROTECT ACCURACY

How can I communicate a careful map-and-source finding so an audience can restate it accurately?

The limit is part of the answer.

How can I communicate a careful map-and-source finding so an audience can restate it accurately?

CLAIM

one sentence that answers the enquiry
qualified with "same" / "this source"

Claim

London

One pin

SOURCE

creator - date - reference
one quoted or paraphrased line

Source

How can I communicate a careful map-and-source finding so an audience can restate it accurately?

LIMIT

what this example cannot show
“...practice varies”

Limit

Model defensible map-and-source reasoning

Watch the decision, evidence and limitation—not just the finished sentence.

1. Opening claim: one sentence that answers how a practice or festival may support belonging.
2. Evidence: one mapped example plus two named-source details; never use the map as proof of belief.
3. Qualification: state variation, perspective or what the evidence cannot show.

Commit before reveal

What should the named audience do before giving praise or correction?

- A. Restate the enquiry, claim, evidence and limitation in their own words.
- B. Vote for the most confident speaker.
- C. Decide whether the work has passed a UAS unit.

Add precision without overclaiming

Compare, qualify, protect variation.

1. Choose an equally valued mode: live, consented audio, slides, poster, pointing/selection or exact scribing.

2. Audience receipt: 'I heard your claim _____. Your evidence was _____. Your limit was _____.'

3. Influence is bounded: pupils may improve an approved resource or access route, not accuracy rules, assessment criteria or evidence sufficiency.

Rehearse the disciplinary move

A. ▶ Start 75 sec

B. ↺ Reset

Audience receipt: “I heard your claim _____. Your map/source evidence was _____. Your limitation was _____.”

Independent Humanities mission

Prepare and deliver a 60–90 second Belonging Briefing to the named audience. Include claim, mapped example, two source details, comparison or explanation, limitation and one evidence-led resource/access recommendation.

EVIDENCE READY

Materials Printed route, named source cards and approved atlas/map as specified.

Access / care Enlarge, chunk, colour-adjust, read exactly or use agreed response mode.
No personal disclosure required.

Independent Humanities mission

Evidence target Decision → map/source action or product → learner explanation; highest prompt recorded.

Supported

Use six cue cards and an agreed response mode; audience records an exact restatement.

My claim is _____. The map shows _____. Source _____ says _____. Source _____ says _____. This may support belonging because _____. It cannot prove _____.

Standard

Independent Humanities mission

Deliver a coherent briefing and answer one evidence question without losing the qualification.

Claim → map → evidence A/B → link/explanation → limitation → recommendation.

Stretch

Adapt the briefing to a second audience or defend the claim against a changed-scale/source-perspective challenge.

Audience/register change → challenge → defended or revised judgement.

Close one loop—do not create a second task

Standard

Identify one strength and one accuracy repair before W14.

Named audience receipt

“I heard your claim/decision as _____. Your evidence was _____. Your uncertainty/limit was _____.”

Influence: Pupils choose one permitted assessment access condition to request for W14 (format, reading route, sensory setup, response mode). Teacher/assessor confirms the boundary before assessment; content and criteria do not change.
