

Topics 2 and 3 evidence task lab

LAUNCH • Science • 40 minutes

Work through supplied Topic 2 and 3 questions, recording each response and any uncertainty before choosing a final response.

Prepare before pupils arrive

Print the pupil pack and open Lesson.pptx. Keep the uploaded HTML available for its live controls. Prepare any approved atlas/source extracts, existing learner work, authorised local data or prior planner named in the source lesson.

Wait, receive and use the least prompt needed.

Keep adult action separate from pupil authorship.

Staff card: preserve the scientific demand; change access or response mode before demand.

Staff card: keep supplied observations separate from explanation and missing evidence.

Preparation guidance carrier.

Access guidance carrier.

Evidence guidance carrier.

Approved topic 2 and 3 evidence tasks · entry map: An observation is recorded before an inference so the two cannot be blurred. Link that anchor only when this second detail is relevant: A response choice is justified by a named feature, pattern or calculation from the supplied task. For this approved Topic 2 and 3 evidence tasks decision, use a quiet card sort, a spoken response, a communication aid or adult handling directed by the learner; the learner still chooses the evidence, order, comparison or action. Staff supporting approved Topic 2 and 3 evidence tasks may steady the named materials and read the displayed source exactly. They do not upgrade the approved Topic 2 and 3 evidence tasks response, fill its missing result or convert its plan into completion. If access to approved Topic 2 and 3 evidence tasks stalls, pause, lower visual density or move to the printed route while keeping the same reasoning demand.

For review or assessment lessons, prepare the centre-approved questions, outcomes and existing learner records. Practice cards and a completed worksheet do not supply missing assessment evidence.

Access and participation

Offer reading aloud, pointing, signing, quiet thinking, a no-touch route and exact scribing where these support the learner. Keep the same subject decision. In shared work, let each learner commit before feedback; use a partner as card mover or checker, then swap. Avoid public speed rankings.

Uploaded outcome: Topics 2 to 3 assessment (Dec).

Uploaded workbook locator: LAUNCH Weekly - Autumn!C45

40-minute teaching sequence

Stage / total time	Teaching move	Adult support / response
Arrival · 3 min	The approved task wording and source locator remain visible while evidence is interpreted. An observation is recorded before an inference so the two cannot be blurred.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.
Starter · 3 min	Picture first: the same map. Today: which responses the evidence supports, and which uncertainties you must keep visible.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.
I do · 4 min	Supported, or an uncertainty that must stay visible? Choose a response, then judge it against the supplied evidence.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.
We do · 3 min	A response choice is justified by a named feature, pattern or calculation from the supplied task. Uncertainty is not failure: it identifies the exact concept, word or step to retrieve before the assessment response is final.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.
I do 2 · 3 min	Available evidence The approved task wording and source locator remain visible while evidence is interpreted. Reasoning move An observation is recorded before an inference so the two cannot be blurred.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.
We do 2 · 4 min	Supported Use a prepared OBSERVED / EXPLAINED frame and select the supported response from three approved options. Standard Interpret each supplied source, justify a response with a visible evidence link and revise one over-strong answer.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.
Independent · 16 min	Complete a short rotation of approved Topic 2 and 3 evidence tasks. Preserve the task locator, make a response before opening feedback, and record whether the response was written, selected, spoken, signed, pointed to or exactly scribed.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.

Stage / total time	Teaching move	Adult support / response
Exit · 4 min	Present one response, the evidence detail that supports it and the uncertainty that remains. The adult repeats the response without improving it.	Wait, receive and use the least prompt needed. Keep adult action separate from pupil authorship.

The timing belongs to the whole stage. Several PowerPoint slides may share it; do not restart that time on every slide. Full source-stage text is in the PowerPoint speaker notes and original HTML.

Answers, evidence and feedback

This is an open evidence task. Judge accuracy against the supplied source or approved mark points, the evidence chosen, the explanation and the stated limit. A personal preference or self-rating has no single correct answer.

Record the teaching response

What the learner actually showed	Next teaching action
Secure explanation with evidence	Reduce content prompting; offer another example or a limitation.
Partly correct / mixed	Point to the deciding evidence and invite a revision.
Access barrier	Change the reading, sensory or response format; keep the subject decision.
Missing source or observation	Keep the gap visible. Name the source or authorised check needed.

Safety and evidence boundary

Use the centre's authorised practical or fieldwork method and local risk assessment. Supplied sample data, fictional place models, card feedback and rehearsals are teaching material. They are not the learner's practical observations or proof of a qualification outcome. For portfolio use, check the exact registered unit/version, accepted evidence and centre process.

Sources and companion notes

Primary classroom source: [SCI_L_A2_W7L2_Topics_2_3_Assessment_Explore.html](#)

The uploaded lesson is included unchanged. Text and teaching steps in the PowerPoint are editable; source diagrams are placed images. Word booklets are editable. Static PDFs cannot reproduce HTML controls; use the paper cards/tables or open the original HTML.

Verification scope: matched to the uploaded title, pathway, objective, stage sequence and 40-minute timing. Embedded workbook references are retained as source locators; this is not a new line-by-line audit of every scheme-of-work row or a centre assessment sign-off.
