Teacher and cover planner

Safe choices offline and online

Monday 9–Friday 13 November 2026 · one 40-minute lesson

Teaching date: _____ Teacher: _____

Exact scheme cells

GROW Weekly - Autumn!C82
Recognise safe and unsafe situations, offline and online.

GROW - Autumn!D13
Keeping safe, healthy & well

GROW - Autumn!I13
PSHE Association programme of study; [AWARD] [QUAL], '[QUAL]', '[QUAL]'.

GROW - Autumn!J13
F: scenario sorting. S: 'my trusted network' + safe/unsafe task (Dec).

Public award labels are masked. The assessment cell still places the trusted-network and safe/unsafe task in December. Today supplies formative scenario evidence; it does not complete the unit or claim an award.

Purpose and success checks

What clue helps us choose a safer step?

I can spot a clue offline or online. I can explain why a choice may be unsafe. I can choose a safer step and ask for help.

GROW-PSHE-W2-E1: individual scenario choice, clue, reason and safer next step, with a short check after feedback. Accept pointing, speech, drawing or writing; scribe only the learner’s own response.

Before pupils arrive

Prepare the deck, one Evidence Sheet and Vocabulary Mat per learner, and one set of Support Cards. The Support Cards contain the six cases, sort labels, a picture prompt and a private-help card. Have pens and a timer ready. No food tasting, risky action, live messages, log-ins or web searches are required.

Identify the staff member and agreed place for private help before teaching. Read the Staff Answers and local safeguarding route. Check the room route is clear. Offer a quiet seat and a supported movement break. Keep the vocabulary mat in view.

Calendar

Week 2 runs Monday 9 to Friday 13 November. The owner supplied a week range, not a lesson day or clock time. Enter the actual teaching date above. The later Week 5 calendar correction is outside this piece.

Forty minute sequence

Slide	Min	Action
1	0	Open title and big question before timing.
2	4	Private check-in. Choose quiet start, water, seated stretch or adult help. Read the right-to-pass rule.
3	2	Use the picture prompt. Point to one clue and hear a possible next step.
4	0	Read the exact objective and the three I can checks.
5	5	Think aloud through the model. Separate the clue from a guess.
6	5	Read the hinge. Pupils point, say or write A, B or C and a reason.
7	12	Sort fictional cases. Use the route that fits current access needs.
8	6	Complete the individual Evidence Sheet. Adult records actual support.
9	4	Check evidence, put cards away and choose one next step.
10	2	Hear a short response to the exit questions.
11	0	Keep the vocabulary mat available throughout.
12	0	Hidden reference for adults.

Hinge and reteach

C. A password is private. Pause and ask a trusted adult without replying or opening links. A shares private details; B puts someone else at risk. If a response misses the risk, return to the visible clue, model the safer step and use one new case before individual capture. A correct letter without a reason is not enough to check understanding.

Access routes

Supported: begin with two cases read aloud. Point to a sort label and clue; tell or draw one next step. Independent: sort all six, then explain one choice on the Evidence Sheet. Aspire: sort all six and show how one missing fact could change a judgement. The adult may read or scribe without supplying the reason.

There is no forced pair work, personal disclosure, cold calling or public performance. Allow processing time, a quiet adult response and an option to pass. After a pass, offer an alternative fictional case privately; do not infer attainment from silence.

Safety evidence and learner voice

Safe discussion and private help

Keep all examples fictional. Do not ask pupils to describe home routines, health conditions, private messages or past harm. Use respectful language about food, bodies, disability and family circumstances. A behaviour can be unsafe even when the person is familiar. Avoid judging safety from appearance.

Offer the phrase “Can I speak to you in private?” If a concern is raised, listen calmly, avoid investigating in class and follow the setting’s safeguarding procedure. Never promise secrecy. Explain that a relevant adult may need to help. Keep safeguarding records separate from the lesson evidence. If a learner is not heard, help them reach another trusted adult.

Assessment and feedback

Check the clue, judgement, reason and next step against the Staff Answers. Accept a different judgement where the learner gives a valid reason and identifies what must be checked. “Safer” means reduced risk, not a guarantee. Record the case ID, actual words/actions, response mode, support and feedback. A copied model or blank form is not completed evidence.

Use the established marking codes VF, WS, I, NS, +, //, ?, R and E as appropriate. Retain the learner’s response after feedback. R records voice, audience, next step and the learner’s own response; it is not an assumed success judgement.

Lundy moments

Space: quiet, non-personal ways to respond. Voice: the learner chooses the case and explains their own view. Audience: the teaching adult hears or reads the response and replies. Influence: record the learner’s requested support or next practice step and how the next task changes.

Speaking listening and writing

Possible communication evidence: explain a clue, listen to another reason, ask for clarification, and write or dictate a safer next step. The receiving teacher can select authentic responses for their own portfolio requirements; this lesson assigns no communication criterion numbers.

Staff reflection and provenance

What was understood? _____ What needs another case? _____
Learner request and response: _____
