Practical checks and crop choices

Pink supported edition

Seasonal growing & plant care.

Check the tray

Find the original tray code.
Notice growth, light and moisture.
Give only the care needed.

Check our space

Measure an adult-approved area or clean container.
Check light and drainage.
Use the adult’s real facts.

You may observe or record.
No tasting. Park tools before a pause.

Practical checks and crop choices continued

Pink supported edition

Choose two crops

Read one calendar row at a time.
Use the crop space clues.

Record in your book

I chose ____ and ____ for our space because ____.

My choice is confirmed / provisional.
A check still needed is ____.

Space facts to use

Size and root room
Light and safe position
Drainage and water
Adult care cover

Practical checks and crop choices continued

Pink supported edition

Add the Week 2 entry

Keep the original tray code.
Keep earlier records.
Count the real shoots.
Measure the same marked shoot if visible.
Record moisture and care.

No visible growth and no water needed are valid records.
Record a move to a new pot or added support.

Finish

Return tools and clear spills.
Wash hands with soap and water.
The adult checks care on other days.
