Gardening tool safety

Using gardening tools safely.

Gardening and enterprise
Resilience & Change

Our checked work area

An adult checks the tools and clear working space.

Wear suitable footwear. Cover cuts and use agreed gloves.

Stop, park the tool and tell an adult if something is wrong.

Keep a clear gap. A safe pause is always allowed.

Tools and their jobs

Tool	Job
Hand trowel	Lift small amounts of growing medium.
Hand fork	Loosen soil in an empty practice area.
Secateurs	Cut small stems. Adult controls blades.
Watering can	Give controlled water after a moisture check.
Gloves	Protect skin. Keep hands clear of blades.

Hazards in the picture

A, B, C or D?
Name the hazard.
Give a safer action.

Invented illustration.

Our safe handling check

The next person needs the secateurs.

A Pass them with the blades open.

B Keep them closed and locked, then place them down.

Which action keeps hands clear of sharp blades?

Supervised handling practice

Step	My practice
1	Choose a checked tool and name its job.
2	Walk with one tool low and away from others.
3	Use it only as the adult has shown.
4	Clean, dry, store and wash hands.

The adult ticks the skill actually observed.

My one-line evidence

I used ____ safely by ____.

Tell an adult or use your book.

Give the safe action you actually showed.

Clear up and exit

Park tools. Clean blunt tools as the adult shows.

The adult checks storage. Wash hands with soap and water.

Name one safe action from your practice.

Next lesson: a short safe-use task and self-check.
