# Maintenance checks and group rota

White standard edition

Maintaining a growing area.

## Practical job list

1  Choose a role and check the real tray or approved area with the adult.
2  Notice what needs checking. Do not disturb roots or handle unknown material.
3  Choose a safe response: care, report, wait or no action needed.
4  Use the group rota to agree the jobs and checks for the next session.

| Check | A safe response |
|---|---|
| Unwanted plants | Ask the adult to identify first. Protect crop roots. No weeds found is valid. |
| Moisture and drainage | Check before watering. No water needed is valid. |
| Pests or damage | Look and report. Do not touch unknown plants or animals. |
| Paths and edges | Keep routes clear. Adult handles sharp or unknown waste. |
| Labels and equipment | Keep generic labels readable and checked tools stored safely. |

No tasting or eating. You may observe, label or record. Park tools and tell the adult before a quiet pause.

## Design and agree our rota

Use role codes, never names. Decide together, using the actual area. Write the rota in your book or ask the adult to scribe.

| Job to check | When | Role code | Agreed response |
|---|---|---|---|
| Unwanted plants | ____ | ____ | ____ |
| Moisture | ____ | ____ | ____ |
| Pests and damage | ____ | ____ | ____ |
| Paths and edges | ____ | ____ | ____ |
| Labels and tools | ____ | ____ | ____ |

Adult daily backup role ____
Cover if a role is absent ____
Read back the plan: agreed / needs a change
One change or decision still needed ____

Choose check times that fit the plants and access. A daily moisture check does not mean daily watering.

## Our safe working check

Use the checks in your book or tell the adult. Ask for help before starting if a check is not ready.

| Before the job | Our check |
|---|---|
| Adult checked area, weather and task | Yes / help / not yet |
| Tools, footwear, gloves and cuts checked | Yes / help / not yet |
| Crop roots and clear routes protected | Yes / help / not yet |
| Stop and report anything unknown | Yes / help / not yet |
| Clean, store and wash hands at the end | Yes / help / not yet |

## My one line

I helped agree a routine for ____ by ____.

Record only the part you actually contributed. An invented area is planning-only evidence.
