Maintenance knowledge card

Pink supported edition

Maintaining a growing area.

Check then care

Use our agreed rota.
Choose one useful job.
Check moisture before watering.
No water may be needed.

Remove only an unwanted plant the adult identifies.
Keep crop roots safe.
Look at pests or damage and tell the adult.

Keep the space clear

Tidy only safe loose items.
Leave unknown plants, fungi, waste or sharp objects.
Tell the adult.

Maintenance knowledge card continued

Pink supported edition

Indoor jobs

Care for trays.
Brush and rinse checked empty pots with clean water.
Drain and dry them.
Prepare crop and tray-code labels.

This removes soil.
The adult decides further cleaning before reuse.

Record honestly

The adult takes area-only before and after photos.
No people, names, signs or logos.
No camera? Label a written record honestly.

Add only real Week 4 growth and care.
