Choose a rock for a job

Today I can… I can name one rock use. I can check one rock feature. I can say why the feature helps.

Knowledge organiser

I am learning to match a rock to a job.

A slate tile can cover a roof; a suitable chalk piece can mark a board. Check actual samples. Simplified; not to scale.

Word	It means
rock	a solid thing from the ground
hard	not easy to mark or change
slate	a rock that can split into thin sheets
property	a thing you can check

Check the feature. Then match it to a job. Use a safe sample.

One rock may suit one job but fail at a new job.
