Weekly plan row

Sectors occupations and job families

Plan field	Weekly row
Pathway and group	GROW Careers · Year A · up to five learners
Unit	Identity & Belonging — Belonging in work
Week and slot	Autumn 2 Week 1 · 2–6 November 2026 · Tuesday 3 November 2026 · P3
Duration	40 minutes: retrieval 5, input 7, guided analysis 10, application 13, reflection 5
Focus	Sectors, occupations and job families
Exact outcome	I can explain the difference between a sector and an occupation and map roles within at least four sectors.
Source	GROW Careers row 9: F9/G9/I9/J9/M9/N9; preceding profile lesson used for voluntary retrieval only
Activity	Retrieve from the previous profile/shortlist/enquiry task without assuming completion or asking for public personal answers. Model the distinction between a sector, an occupation and a job family using the source cards. During guided analysis, compare work tasks, map examples across four sectors, notice five overlapping role types and test the cross-sector administrator example. For independent application, create a four-sector map with accurate occupation placements in each sector, a task-based reason for one placement in each sector, one occupation that can occur across sectors and an administration job-family explanation. Include frontline, technical, professional, support and management examples across the map using the supplied bank; these are overlapping work descriptions, not fixed ranks. Keep first placements, actual prompts and any revised thinking. Reflect individually and update the Careers Portfolio or action plan only with actual work.
Evidence	An individual sector/occupation map covering at least four sectors, with accurate sector and occupation examples, task-based placement reasons, different role types, a cross-sector occupation and a job-family link; retain actual support and any revised thinking.
Core check	Distinguish sector from occupation with examples; map accurate roles within at least four sectors. One accurate role per sector is sufficient for the mapping component. Record added features separately.
Routes and access	Independent / Supported / Floor. Reader, scribe, usual aid and typing are normal modes; record normal access separately from answer prompts. No cold calling.
Careers	This helps me see the range of work within sectors and compare related occupations.
