Teacher and cover plan

Tuesday 17 November 2026 | P6 | 40 minutes

Lesson

Evaluating sources | Tuesday 17 November 2026 | Tuesday P6 | 40 minutes
LAUNCH pair. Year A. Formative; Week 7 is assessing.

Aim

I can compare sources and use evidence to explain a choice.

Theme

Identity & Belonging: informed choices about joining a fictional activity.

Careers

Before an application, check role and training details against current evidence so your choices are well informed.

Prepare

Open the lesson page or fourteen editable slides. Provide the fictional source sheet, one route and one evidence record for each learner. Offer the pink-paper versions. Check the agreed practice folder and a word processor. Use up to two devices, display and pens. Hide personal files.

Participation

Model first. No cold calling. No required reading aloud or presentation. Each pupil may point, write, type or speak quietly to an adult. Allow processing time. Staff reading is optional, private support. Do not display pupil answers.

Success

I compared who, when, purpose and evidence.
I used two source letters and details for my choice.
I named one thing I still need to check.
I saved and reopened my own work.

Lesson sequence

Tuesday 17 November 2026 | P6 | 40 minutes

0 to 3 minutes Arrival

Slides 1-2. Model a title, headings and save-and-open routine. Private recall choice.

3 to 7 Starter

Slide 3. Model the difference between a slogan and a checkable test result. Private pointing or marking.

7 to 13 Model

Slides 4-5. Compare M and N. Demonstrate who, date, purpose and evidence, then a reason and limit.

13 to 15 Words

Slide 6. Match a term privately after an example.

15 to 20 Together

Slide 7. Mark A, B and C. Fade from locating one date to pupil comparison.

20 to 23 Hinge

Slide 8. Is a recent date enough? No. Re-model for up to 90 seconds if needed; use repeated-advert parallel check.

23 to 35 Task

Slides 9-13. Each learner compares, writes a reason and one limit, saves and reopens. One device: two six-minute turns.

35 to 40 Exit

Slide 14. Transfer claim about 12 and 13 minutes, then saved work and response to feedback.

Modelling and adaptations

Tuesday 17 November 2026 | P6 | 40 minutes

Worked example

M is a trial note by session staff dated 10 November 2026. It records 18, 20 and 22 minutes. N is an undated advert saying 5 minutes with no data. Model: M has evidence for these trials; N has an unsupported claim. Neither proves every future result.

Fade the support

Mark all four checks on M. Locate only the date on A. Let the pupil mark the other checks. Then ask for an individual reason. Point to the source before offering choices; scribe exactly only if needed.

Cognition and language

Use one step at a time, a visible worked model and the word page. Reduce copying with the Supported frame. Allow planning in any language. Use short stems and check meaning privately.

Communication and SEMH

Explain the routine in advance; offer private response modes and processing time. No surprise questions, comparison of learners or forced reading. Offer a brief pause within the stage time and return to one clear step.

Sensory and physical

Offer the pink-paper variant, larger display text and a clear uncluttered desk. A learner may point while staff records their exact choice. Record access support separately from source reasoning.

Misconceptions

New means true: a date helps with relevance but evidence is still needed. Two matching pages prove it: copied claims are not separate checks. Adverts are always false: purpose raises questions, not an automatic verdict.

Evidence and next steps

Tuesday 17 November 2026 | P6 | 40 minutes

Core evidence

Each pupil compares at least two sources, cites a detail from each, makes a reasoned choice and states an unresolved question or limit. Record source-check prompts used. Observe the saved file opening with the intended text.

Saving

Use the agreed ICT_Practice/W03_Sources folder. Distinguish individual files as Source_check_A_v1 and Source_check_B_v1 with the native extension. Aspire retains v1 and saves v2. A folder name alone does not make work private; staff checks access.

Feedback

Give one specific success and one NS. Pupil responds in their own colour or chosen private mode. Record VF, WS or I accurately. Use R only when the pupil has responded and an adult audience has heard or read that response. Do not prefill completion.

Paper fallback

Use the same cards and frame in the book. Paper can show comparison and a reason. Mark digital saving and reopening not yet observed, then complete these at a device session.

Assessment decision

Secure: relevant comparison, supported reason and limit are present. Developing: choice is given but relies only on date, appearance or one claim. Revisit the model and record the next teaching step. This is formative, not an accreditation claim.

Progression

Week 4: spreadsheet formulas. Week 5: charts. Week 6: accessible presentation. Week 7: independent task with a paragraph frame; assessing.
