Final task step cards

Tuesday 15 December 2026 | P6 | 40 minutes

Today I can

I can use my ICT skills to make and check a clear kit update.

1 Choose and protect

Read the two source cards. Choose the source for this kit and give a reason. Use only made-up kit facts. Keep personal details out of the files.

2 Work out and chart

Check the starter inputs. Use formulas for each row and the whole total. Make a chart of the three items, with clear labels and points. Leave the whole total out.

3 Explain in a document

Use a title, a heading and a short paragraph. Explain the source, a formula, the chart and one access choice. The frame is on the word page.

4 Update one slide

Use a copy of an earlier slide or a blank slide. Add the new chart, a useful title and a short comparison. Use clear text. Give the chart a useful description and check its reading order.

5 Save and gather

Save and reopen the task files. Use the evidence sheet to locate outputs from all seven weeks. Record any missing work and the help used.

Private responses

Plan in your book or type privately. Point or speak quietly to an adult. No reading aloud or live talk is needed.

Words and paragraph frame

Tuesday 15 December 2026 | P6 | 40 minutes

source

Where a fact came from.

formula

A calculation made with cell references.

evidence

Work or an action that shows a skill.

independent

A choice or action you made without a prompt.

access

Ways to make the information easier to use.

review

Check the work and choose a next step.

In your book or private document

I used source ... because ... . My formula ... works out ... . The chart shows ... . I made ... easier to use by ... .

Keep it clear

Use a title and a heading. Short sentences help. Use your own task results. You may plan in any language.

Knowledge organiser

Tuesday 15 December 2026 | P6 | 40 minutes

The aim

I can use my ICT skills to make and check a clear kit update.

Files and privacy

Use a new folder and clear task labels. Keep original versions. Leave out personal details.

Sources and facts

Check who or what the source is for, when it was checked and whether it fits the task. A new date alone is not proof.

Formulas and charts

Use cell references to multiply inputs. Add row totals once. Chart the items with a useful title, labels and points. Start a bar or column chart at zero.

Clear communication

Use a title, heading and short paragraph. On a slide, use readable text and contrast. Describe a useful image and check its reading order.

Evidence and review

Keep file or book locations for seven weeks. Record dates, actions and help used. Missing work stays marked missing.

Where this leads

A short account of checked work can support an application. Use a saved example to explain a skill and the help you used.

Final task brief and sources

Tuesday 15 December 2026 | P6 | 40 minutes

Audience and purpose

Help a small group plan a new activity kit. All values are made-up points, not prices.

Source A

Checked task brief, 15 December 2026. The table below gives the inputs for this kit.

Source B

Draft note, 8 December 2026. Card packs were listed at 4 points each. This note has not been checked for the new kit.

Item	Packs	Points for each pack
Paper packs	3	4
Card packs	2	5
Fastener packs	3	2

Spreadsheet

In the Task sheet, A3:D7 holds the table. Inputs are in B4:C6. Add row formulas in D4:D6 and the whole total in D7. Make a chart from item names A4:A6 and row totals D4:D6. Check one product by hand.

Document and slide

Write the short update using the frame. Update one slide with the new chart, a clear title and comparison. Add a useful image description and check title, chart, comparison order.

Save and reopen

Use ICT_Practice/W07_Final and Kit_A_v1 or Kit_B_v1 with each file type. Keep earlier files. Record what you did and any help used.

Supported route

Tuesday 15 December 2026 | P6 | 40 minutes

The aim

I can use my ICT skills to make and check a clear kit update.

Steps

1. Use one step of the brief at a time. Point to the source you will use.
2. Check the starter inputs. Work out each row with a formula, then the whole total.
3. Make a chart of the three row totals. Leave the whole total out.
4. Use the paragraph frame in a document with a title and heading.
5. Update one slide. Add a chart description and check its object order.
6. Save and reopen. Record your evidence and all help used.

In your book or private file

I used source ... because ... . My formula ... works out ... . The chart shows ... . I made ... easier to use by ... .

Success

[ ] I used the right source and checked my results.
[ ] I made clear files for the reader.
[ ] I gathered evidence and recorded the help I used.

Support record

I used ... . I did ... on my own. The adult helped with ... . A route name does not prove independence.

Independent route

Tuesday 15 December 2026 | P6 | 40 minutes

The aim

I can use my ICT skills to make and check a clear kit update.

Steps

1. Choose a source and give a reason linked to this kit.
2. Use cell references for the row totals and whole total. Check one by hand.
3. Make a labelled chart of the three items. Check its values.
4. Write a short structured update with the paragraph frame if useful.
5. Update one slide so the new chart and its meaning are clear.
6. Save, reopen and index this task beside your earlier work.

In your book or private file

I used source ... because ... . My formula ... works out ... . The chart shows ... . I made ... easier to use by ... .

Success

[ ] I used the right source and checked my results.
[ ] I made clear files for the reader.
[ ] I gathered evidence and recorded the help I used.

Support record

I used ... . I did ... on my own. The adult helped with ... . A route name does not prove independence.

Aspire route

Tuesday 15 December 2026 | P6 | 40 minutes

The aim

I can use my ICT skills to make and check a clear kit update.

Steps

1. Finish and check the core task first.
2. In a v2 copy, change paper packs from 3 to 4.
3. Check how the row total, whole total and chart change.
4. Revise the explanation and slide so they match the v2 values.
5. Explain one limit of the data and one access choice.
6. Keep v1 and v2. Record what you checked and any support.

In your book or private file

I used source ... because ... . My formula ... works out ... . The chart shows ... . I made ... easier to use by ... .

Success

[ ] I used the right source and checked my results.
[ ] I made clear files for the reader.
[ ] I gathered evidence and recorded the help I used.

Support record

I used ... . I did ... on my own. The adult helped with ... . A route name does not prove independence.

Seven week evidence sheet

Tuesday 15 December 2026 | P6 | 40 minutes

Record in your book or private file

For every row, note the actual file and folder or book page, its date, status and support used. Use found, missing or not yet checked. Earlier lesson resources do not count as your work.

Week	Output to locate	Evidence to check
1	Files and personal information	Folder or saved file; safe fictional details
2	Structured document	Title, headings and clear text
3	Source comparison	Chosen source and reason
4	Formula spreadsheet	Formula cells and a checked result
5	Chart and comparison	Labels, values and meaning
6	Accessible presentation	Title, description and order check
7	Final task files and paragraph	Source, calculations, chart, document and slide

Today's observation

Date: ... Action seen: ... File or book location: ...
On my own / with access support / with a reasoning prompt / not yet seen. Note the actual help. Repeat for each skill.

My review

One skill I can show: ... My next step: ...
My response: ... Adult acknowledgement: ...
Missing work and follow-up action: ...
