Sequence and evidence guide

Tuesday 15 December 2026 | P6 | 40 minutes

The approved sequence

Year A, Autumn 2. Week 1 files and personal information; Week 2 structured document; Week 3 evaluating sources; Week 4 spreadsheet formulas; Week 5 charts; Week 6 accessible presentation; Week 7 independent task with a paragraph frame, assessing.

This lesson

Tuesday 15 December 2026, P6. Week commencing 14 December. One 40-minute lesson for the LAUNCH pair. School and Public teaching content is identical and generic.

Final task

Use fictional new kit inputs to produce a formula spreadsheet and chart, a short structured document and one updated slide. The supplied starter holds inputs only; formulas, chart and explanations are pupil work.

Seven week evidence

The evidence sheet gathers actual output locations for Weeks 1-7. Keep original dates and support records. Separate prior evidence, today's observations and missing work. Do not infer independence from a polished file or a route label.

Access and follow up

Model first with different data. Offer pink print, private answers, exact scribing with support recorded, and no compulsory reading aloud or cold calling. Paper planning does not prove digital actions. Schedule any missing software checks later.

After this return

The ICT half-term is complete. Creative Arts Spring 1 Week 1, Explore pathway, BUILD and GROW, awaits the owner's brief after acceptance.
