Staff answers and teaching notes

Tuesday 23 February 2027 · P3 · 40 minutes · Year A

BUILD Careers · Spring 2 Week 1 · Shared resource

I can identify at least four behaviours employers value, such as reliability, communication, effort and safety.

Model and card answers

All workplace cases are invented. Accept equivalent safe language. Do not require a public performance or a personal history.

Card A

Reliability

The worker does what was agreed and lets the team know.

Card B

Communication

The worker asks a clear question instead of guessing.

Card C

Effort

The worker uses help and tries again.

Card D

Safety

The worker avoids the hazard and reports it. The worker does not try a task they have not been taught.

Worked example and fade

I look for what the worker agreed to do. The worker did that task. This shows reliability. The clear message also shows communication.

Communication and safety are both valid: the worker asks for the safe method instead of guessing.

Judgement and safe delivery

Main hinge

A tool looks broken. You have not been taught to fix it. What is the best next step? A: Try it quickly so the job is done. B: Keep clear and tell the agreed adult. Key B. Safety comes first. Stop and report a possible hazard.

Parallel hinge

A worker sees a loose cable across a walkway. What should the worker do? A: Keep clear and tell the agreed adult. B: Step over it and say nothing. Key A. Report the hazard so it can be dealt with safely.

If any pupil chooses A or cannot explain B, model stop, keep clear and tell. Use the parallel hinge before releasing the task.

What to retain

Reliability and an action; Communication and an action; Effort and an action; Safety and an action. Record the actual words or selections, first attempt, work reference, usual access, supplied choices and answers, one NS and reply. Spelling and handwriting are not the target.

Common errors

Effort means keep going even when a task is unsafe. Effort includes stopping, asking for help and using the safe steps.

Asking for help means I am bad at the job. A clear question helps a worker do a task well and safely.

Access and private help

Book, pointing, an aid, typing or an exact scribe are valid. Read back a scribed reply and allow a change. Record access apart from supplied answers. Plan in any language.

Ask a trusted adult for a private talk. Point to HELP, write or use your aid. You may pass, pause and return with help. No personal story is needed.

1 Point to the place or instruction. 2 Ask a short question. 3 Rephrase the instruction. 4 Provide a scaffold or choice. 5 Model the first step only, then return the task.

VF verbal feedback; WS worked with support; I independent; NS next step; // self-edit; ? read back; E actual evidence saved; R responded. R follows Voice and Audience, one NS and the pupil reply in the same colour, on the same page or usual mode. Add to Careers Portfolio. Offer to the Communication portfolio.

Only the unit award is named. Staff confirm any mapping from actual evidence. If a concern arises, listen calmly, avoid probing or secrecy promises and follow usual procedures. Keep private concerns out of shared work.
