Staff answers and teaching notes

Tuesday 16 March 2027 · P3 · 40 minutes · Year A

BUILD Careers · Spring 2 Week 4 · Shared resource

I can identify a respectful response when I disagree with someone at work.

Model and card answers

All workplace cases are invented. Accept equivalent safe language. Do not require a public performance or a personal history.

Card A

I think they go on the shelf. Can we check the task?

The worker shares a view without blame and checks what to do.

Card B

Please give me some space. If it does not stop, I will ask the lead worker for help.

The worker states a clear limit and knows where to get help.

Card C

I have not been shown how to use this. Let us ask the lead worker.

The worker can say no to an unsafe task and ask for training or help.

Card D

Let us pause. You can speak, then I will speak. We can check the task together.

Taking turns helps both views be heard and gives a way to decide.

Worked example and fade

Pause and take one slow breath if it helps. Say: 'I think the box goes on the shelf.' Ask: 'Can we check the task together?' If they still cannot agree, ask the lead worker for help.

Fade only answer cues; keep reading and communication access.

Judgement and safe delivery

Main hinge

A colleague asks a worker to use a tool they have not been shown how to use. Which reply is safe and respectful? A: Fine. I will try it. B: I have not been shown how. Let us ask the lead worker. C: You are silly. Do it yourself. Key B. It states a clear safe limit and asks for help without blame.

Parallel hinge

A colleague keeps standing too close after a worker asks for space. What could the worker do? A: Shout an insult. B: Keep quiet even if they feel unsafe. C: Move to a safe place and ask the lead worker for help. Key C. The worker can keep a clear boundary and seek help.

If every pupil chooses B and gives or points to the clear limit or help route, move to the route task. Otherwise model a safe limit again and use the parallel hinge.

What to retain

Respectful response to disagreement; Boundary and safe help step. Record the actual words or selections, first attempt, work reference, usual access, supplied choices and answers, one NS and reply. Spelling and handwriting are not the target.

Common errors

Respect means saying yes to every request. A worker can say no to an unsafe task and ask for help with kind, clear words.

A disagreement must be fixed by the two workers on their own. They can pause and ask a lead worker for help, especially if a boundary is ignored or anyone feels unsafe.

Access and private help

Book, pointing, an aid, typing or an exact scribe are valid. Read back a scribed reply and allow a change. Record access apart from supplied answers. Plan in any language.

Ask a trusted adult for a private talk. Point to HELP, write or use your aid. You may pass, pause and return with help. No personal story is needed.

1 Point to the place or instruction. 2 Ask a short question. 3 Rephrase the instruction. 4 Provide a scaffold or choice. 5 Model the first step only, then return the task.

VF verbal feedback; WS worked with support; I independent; NS next step; // self-edit; ? read back; E actual evidence saved; R responded. R follows Voice and Audience, one NS and the pupil reply in the same colour, on the same page or usual mode. Add to Careers Portfolio. Offer to the Communication portfolio.

Only the unit award is named. Staff confirm any mapping from actual evidence. If a concern arises, listen calmly, avoid probing or secrecy promises and follow usual procedures. Keep private concerns out of shared work.
