BUILD Careers · Spring 2 Week 5 · Public edition

Problems, feedback and mistakes / My work-ready check

Unit: Resilience & Change — Work-ready resilience

Theme: Resilience & Change. Five teaching weeks. Week 5 is the closing lesson and brings rows 26 and 27 together. Group: up to five learners. Supported is the default.

Exact lesson outcomes

I can respond to feedback without giving up and choose a sensible next step after a mistake.

I can rate my work-readiness and choose one skill to improve before work experience or transition.

Source: BUILD Careers scheme, Spring 2 rows 26, 27. Focus and outcomes supplied verbatim in the current brief.

Prepare and purpose

Teach useful habits with invented, unnamed workplaces. Books, pens, Support Cards, Vocabulary Mat and Evidence Sheet. Print cards as reusable references. No write-on pupil sheets, internet, login or personal phone is needed. Read the exact outcome aloud and explain the short goal.

Where this leads: This helps me use feedback and plan one skill to practise before a new work task.

Thread tags: SMSC S/So; British Values IL/MR. Respectful speech, a private choice of response and safe help-seeking are practised.

Forty minute sequence

Phase	Min	Main action
Arrival and retrieval	5	Point to one helpful work habit.
I Do	8	Watch A. Pause. Listen. Ask. Try. Check.
We Do	10	Choose a reply and safe fix for B.
You Do	12	Use C. Then rate your skills and pick one small step.
Review and exit	5	Show one work clue and one skill to practise.

Teaching and checks

Arrival and retrieval 5 minutes

Recall one helpful work habit from earlier weeks. Explain that a rating is a private starting point, not a grade.

I Do 8 minutes

Pre-teach feedback and rate. Model scenario A and a rating supported by an invented work clue. Explain that asking for help can show resilience.

We Do 10 minutes

Work through B; use main hinge and parallel recheck. Check a sample work clue against a skill without giving a class rank.

You Do 12 minutes

First 5 minutes C response and next step. Next 7 minutes six-skill self-rating and one skill/action/support/check plan. Keep evidence distinctions clear.

Review and exit 5 minutes

Private feedback and reply. Bank actual work. Complete six exact-outcome grid from earlier evidence and today's response. Missing earlier work stays not yet seen.

Model and fade

Pause. Listen. Say, 'Thank you. Which shelf is right?' Check the label. Move the box safely.

Model A in full. For B supply only 'Pause. Listen.' For C keep the word bank but leave the reply and next step to the learner.

Hinge and parallel recheck

Main: A worker is told a label is wrong. What is a useful next step? A: Hide the label and stop trying. B: Ask what needs to change, then check and fix it. Key B.

Parallel: The task has one error. What could the worker do? A: Ask for help, fix the error and check again. B: Keep the error secret. Key A.

If the reply is unsafe or unclear, reread A, model a calm question and recheck with the parallel item before C.

Access evidence and feedback

Supported

Use C. Pick a calm reply from two choices. Pick a safe next step. For the work check, point to a rating and choose one skill with an adult. The adult records your words and help.

Independent

Use C. Give a calm reply, a fix and a check for next time. Rate the six skills using work you kept. Pick one skill and one small step to practise.

Aspire

Use C and D. Explain when to ask for help or stop for safety. Use a work clue to explain your rating. Say how you will know your small step has helped.

Planned adaptations

Cognition and Learning: One scenario at a time; retain A and short pause-listen-ask-try-check cue. Offer two choices and read exact outcomes aloud.

Communication and Interaction: Accept pointing, communication aid, exact scribe or typed words. Give processing time and a private reply.

SEMH: Fictional errors only; no public ranking or demand for personal mistake stories. A planned pause and supported return are valid.

Sensory and Physical: Large text; pointing instead of moving cards; position materials for access; never practise an unsafe lift.

EAL: Plan in any language. Pre-teach feedback, mistake, rate and next step using the examples.

Prompt ladder and adult focus

1 Point to the place or instruction. 2 Ask a short question. 3 Rephrase the instruction. 4 Provide a scaffold or choice. 5 Model the first step only, then return the task.

I Do: Point to the calm reply and safe fix. Model the first step.

We Do: Wait for the learner's choice before reading back. Log any supplied answer.

You Do: Record the pupil's own reply and skill choice, usual access, answer prompts and evidence reference.

Record what is shown

Keep the actual response to: Calm response to feedback; Sensible fix after a mistake; Check for next time; Chosen skill and work clue; Small step support and check time. Record date, work reference, response route, usual access, supplied answers and prompt level. A pass or missing work is not yet seen; say which. Do not count the adult model as independent work.

VF verbal feedback; WS worked with support; I independent; NS next step; // self-edit; ? read back; E actual evidence saved; R responded. R follows Voice and Audience, one NS and the pupil reply in the same colour, on the same page or usual mode. Add to Careers Portfolio. Offer to the Communication portfolio.

Evidence may contribute to the unit award. Staff check actual evidence; the lesson does not automatically confirm an award. Ask a trusted adult for a private talk. Point to HELP, write or use your aid. You may pass, pause and return with help. No personal story is needed.

Use the normal concern route if a pupil shares a worry. Listen without probing or promises of secrecy. Keep private concerns outside portfolio work.
