Scenario and sort answers

Caring A school: asks before help, respects yes/no. Caring B home: shares a safe small task with an adult. Caring C community: leaves space without touching a person or their aid. Not caring D: grabs after no; improve by asking and listening. Not caring E: shouts during rest; improve by lowering noise or moving away. Not caring F: blocks the path; improve by making room. Judge the action, not the child's character.

Checks and reteach

Starter A, ask first. I do check ask first, not grab. Hinge B, ask and listen to the answer. Parallel hinge A, leave room to pass. If unsure, keep picture, bank, frame and model, reduce to two cards and model one first step only. Return a private choice to the pupil. Do not use a public correctness check.

Plan boundary

The class proposes ONE future action: tidy book tray or class help card. Record the actual choice and the voices used to agree it. The model is not a prefilled agreement. Keep the choice open if no safe shared plan is reached. A plan names what, who could help, kit and the adult to ask. It can include a seated or communication role. Do not execute the action, collect money, contact others or infer permission. Week 5 delivery and future evidence remain unclaimed.

Valid evidence

Accept pointing to the three caring scenes, a correct supported sort, one selected/said reason, and an authentic contribution to the shared class plan. For exact scribing, the pupil chooses content; adult writes exact words, reads back privately and invites keep/change. Record what adult supplied. Copying a full model is practice until a further pupil choice demonstrates understanding.

Prompt ladder and access

1 Point to place/instruction. 2 Ask a short private question. 3 Rephrase. 4 Provide a scaffold or two choices. 5 Model the first step only then return the task. No public questions, cold calling or required reading aloud. Retain word bank, sentence starter and model on every task/route. Use usual aid, exact scribe and planning in any language.

Private participation record

Code	Caring choices and plan voice	Actual mode/help
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____

Leave absent/unknown results blank. Record independent reading separately from listening. These invented home/community scenes do not invite pupil histories.

Feedback and later action

Voice plus actual audience reply, one NS and pupil own response precede R. E follows actual banking only. Offer authentic work to the Communication portfolio. Do not claim the class proposal was carried out or the future evidence banked. Staff check the qualification and evidence record separately.

Next decision

If caring choices are secure, reduce adult sentence completion while keeping visuals and bank. If care is equated with taking over, revisit ask first and respect no. Revisit the single proposed action in Week 5 only under the later owner brief.
