Pupil facts and card codes

Friday 12 March 2027 | P2 | 40 minutes | Year A

Humanities | GROW | Spring 2 Week 3 | HUM-GROW-S2-W03

Learning outcome: Investigate causes and effects of climate change.

You may point, write, type, speak in private or direct a scribe. You may pass. Reading aloud is your choice.

We use UK data and calm examples. No one needs to share a personal worry. The graph is about the whole UK. It does not measure the trend in a named local place.

Cause Finder reads a card. Evidence Checker asks where it fits and why. Swap after each card. If there is a third pupil, they check the graph label, then rotate.

Card	Newly written fact
C1 Burning fuels	Burning coal, oil and gas adds carbon dioxide to the air.
C2 Removing forests	Fewer trees can mean less carbon dioxide is taken from the air. Clearing forests can also release stored carbon.
C3 Farming and gas	Some farming adds methane to the air. Methane is a greenhouse gas.
C4 Warmer conditions	More trapped heat raises Earth's long-term mean temperature.
C5 Rising seas	Melting ice on land adds water to the sea. Warm sea water also expands. Sea level can rise.
C6 Heat and heavy rain	Warmer conditions can bring more hot spells. Warmer air can hold more water, which can make heavy rain more intense.

Use these codes or ready-cut labels in your book. The cards are not quotations.

A guide for my book

Friday 12 March 2027 | P2 | 40 minutes | Year A

Humanities | GROW | Spring 2 Week 3 | HUM-GROW-S2-W03

In your book, sort C1 to C6 into causes and effects. Build one cause-to-effect chain with at least three steps. Read the graph to find the highest and lowest selected year. Finish one sentence about what this could mean for a general UK region.

A careful enquiry

1 Read a cause card. Find an effect.

2 Link the steps. Use more gas and more trapped heat.

3 Read the UK graph. Check the year and the unit.

4 Name the highest and lowest selected point.

5 Make a careful link for a general UK region.

This is UK data. It is not a measured local trend or a forecast.

____ adds gas to the air. More heat is trapped, so ____. For our UK region, this can mean ____.

My check

I used the facts. I made my own choices. I gave a reason. I can show the help I used.

Use the agreed quiet signal for a pause. Stay with the adult in the usual place. Rejoin with one card check. A neutral shape task is ready.
