Climate change causes and effects

Friday 12 March 2027 | P2 | 40 minutes | Year A

Humanities | GROW | Spring 2 Week 3 | HUM-GROW-S2-W03

Learning outcome: Investigate causes and effects of climate change.

You may point, write, type, speak in private or direct a scribe. You may pass. Reading aloud is your choice.

Route Aspire

1. Complete the card sort, chain and graph questions.

2. Use exact values to compare 2025 with 2020. Explain why a cooler 2010 does not by itself disprove long-term warming.

3. Explain why this small graph alone cannot prove the cause of warming or predict the next local hot day.

My own finish

In your book, sort C1 to C6 into causes and effects. Build one cause-to-effect chain with at least three steps. Read the graph to find the highest and lowest selected year. Finish one sentence about what this could mean for a general UK region.

____ adds gas to the air. More heat is trapped, so ____. For our UK region, this can mean ____.

My check

I used the facts. I made my own choices. I gave a reason. I can show the help I used.

Use the agreed quiet signal for a pause. Stay with the adult in the usual place. Rejoin with one card check. A neutral shape task is ready.
