Maps data and community choices

Friday 19 March 2027 | P2 | 40 minutes | Year A

Humanities | GROW | Spring 2 Week 4 | HUM-GROW-S2-W04

Today we compare groups and show map and data evidence.

You may point, write, type, speak in private or direct a scribe. You may pass. Reading aloud is your choice.

Three invented UK groups plan an event as the climate changes. They all care about people and use maps and data. Their values can overlap. They choose some different actions. These are examples for a task, not reports about real groups. People within any worldview can differ. You do not need to share your own beliefs.

Today I can

I can use the map index, grid and key.

I can show two data values with their years and unit.

I can compare two groups using their stated values and actions.

In your book

In your book, make one small report. Keep your own map check: locate UK and Japan, then add a key. Present the UK values for 1980 and 2025 with years and C units. Give one careful data statement. Compare Groups A and B: one shared aim, one different action and a link to a stated value.

My map shows ____. The UK mean was ____ C in ____ and ____ C in ____. Both groups ____. Group A ____, while Group B ____. One reason is ____.

Use one route page. You may plan in any language. The adult can read or scribe your exact choice.
