Stretch construction design pack

Design and Technology LAUNCH Spring 2 Week 1 Thursday 25 February 2027 P1 Year A

I can plan a useful card stand, show three ideas and explain my choice.

1 Complete the three ideas, labels and final choice first.

2 Compare your chosen idea with one rejected idea against the same checks.

3 Explain a trade-off, such as a broad base using more card but helping stability.

4 Propose a fair later test. Separate a prediction from an actual result.

Keep your own design record

Three design checks ___. Idea 1 and two useful labels ___. Idea 2 and two useful labels ___. Idea 3 and two useful labels ___. My chosen idea ___. Two reasons ___. One question or change ___. Card size and proposed stand size ___. Support used ___.

Purpose and safety

Sam needs one 80 mm by 60 mm card upright and readable. Whole stand table area 160 mm by 120 mm including its channel; body base alone 120 mm by 80 mm. Plan safe edges, card removal by hand and a later 30-second hands-away check on a level table. No tools or cutting are required today.

Plan in any language. Point, speak, sign or confirm a pupil-directed adult sketch or scribe. Keep actual missing work pending.
