Planning and mock up activity prompts

Design and Technology LAUNCH Spring 2 Week 2 Thursday 4 March 2027 P1 Year A

1 Retrieve the purpose

Find your actual Week 1 design and specification. Keep one 80 by 60 mm card upright for 30 seconds. Whole model table area 160 by 120 mm.

2 Choose material and join

Compare properties. Name an actual sample trial or model information. Give your own purpose-linked reason.

3 List and plan

List two stand parts plus the test card with quantities and sizes. Write the step order, tool and safety check.

4 Make a card mock up

Use approved scissors or prepared parts. Pause before cuts, folds, joins and testing. Close the inside tab. Shelf OUT and front stop UP.

5 Check and improve the plan

Use the actual test card if the model is ready. Record what really happened, a change or a next check and support.

Materials free route

With no card, tools, paper or printer, hear the model material descriptions and written sizes. Point, speak or sign a material choice and reason. Rehearse the steps with empty hands. An adult records exact confirmed words when a recording method is available. Mark transcription pending until it exists. A card mock-up and material tests stay pending; rehearsal is not practical evidence.
