# Teaching assistant brief

Design and Technology  LAUNCH  Spring 2 Week 3  Thursday 11 March 2027  P1  Year A

I can make from my checked plan and use real checks to improve the work.

### Before tools

Retrieve the actual plan. Check approval, tool condition, materials and individual access needs with the teacher. Keep unsafe or unfamiliar tools out of use. No power tools are used. Do not substitute a heated join.

### Model and guided stage

Point to one line or action. Ask the pupil to explain it before doing it. Model the first check, then fade that prompt when safe. Adult handling can be pupil directed; record the true roles.

### Making stage

Keep agreed supervision. Prompt stop and check before a correction. Record each actual adjustment and reason. A wrong cut is discussed with tools down before any further cut.

### Review and evidence

Return tools. Record the true stage reached and any support. Read the pupil words back. A model or adult action is labelled as such. Keep missing evidence pending.

### Access and pause

Accept speech pointing signing or any language. Use a calm short return cue. A pause starts with tools down and work secured.

### Prompt ladder

Point to the place. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only then return the task when safe.
