# Supported making pack

Design and Technology LAUNCH Spring 2 Week 3 Thursday 11 March 2027 P1 Year A

I can make from my checked plan and use real checks to improve the work.

Use the actual approved design and build plan. Wait for the adult tool and support checks.

1. Use one action at a time with an adult. Point to your actual plan.

2. Help check the marks or direct adult cutting and joining. Keep the true roles clear.

3. Use stop and check after each agreed stage.

4. Explain one actual check and any adjustment. An adult can scribe your words and read them back.

## My actual record

In your book: design and plan location ___. Material and join ___. What I did ___. What the adult did ___. Actual check ___. Each change and why ___. Recheck or pending ___. Next step ___.

## Safe access

Rehearse in any language. Point speak sign or direct an adult. Keep agreed supervision. Prepared pieces and adult actions are labelled. A materials free rehearsal is simulation and leaves making evidence pending.
