Teaching assistant brief

Design and Technology LAUNCH Spring 2 Week 5 Thursday 25 March 2027 P1 Year A

I can explain a materials cost, present my work in my own words, and review my progress with real evidence.

Before the cost sheet

Gather real records and identify gaps. Read the invented values one row at a time. Keep quantities and units together. Do not choose an actual product total without the adult-agreed allocation.

I do and we do

Use quantity times unit price, then add subtotals. Point to one whole sheet and the included test card. Model one presentation prompt, then fade to a sentence start.

Independent stage

Keep the pupil’s own words. Support private or accessible explanation without forcing a public audience. Record the actual mode, duration and help. A script is not a talk unless it was shared in an observed agreed mode.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Give a scaffold or choice. Model the first step only, then return the task.

Progress and gaps

Ask for the real evidence location before a grid tick. Keep actual adult actions distinct from pupil skills. Let the pupil correct scribed words and choose one next target.

Language and a safe pause

Rehearse in any language. Pause privately and agree the return. No tool work is needed. Use safe records or drawings if the object is missing or unsafe to handle.
