Standard cost and review pack

Design and Technology LAUNCH Spring 2 Week 5 Thursday 25 March 2027 P1 Year A

I can explain a materials cost, present my work in my own words, and review my progress with real evidence.

1 Use your actual adult-agreed material allocation or clearly label an estimate.

2 Show quantity, unit price, subtotal, total and a real cost change.

3 Plan and give an own-word two-minute presentation in an agreed mode.

4 Check all six outcome rows across five weeks. Name a real strength, gap and next target.

Keep your own record

In your book: actual allocation / estimate ___. Quantity unit price and total ___. Cost change or unknown value ___. Presentation actually shared / pending ___. Mode duration and support ___. Progress claim and real source ___. One future target ___.

Cost and evidence check

Default model: one sheet 30p plus three 10 cm tape portions at 5p gives 45p materials cost. Charge each allocation once. Do not turn a model into a claim about actual work. Use the six-outcome grid across five weeks.

Plan in any language. Point, speak, sign or confirm a scribe’s words. A private observed oral estimate can be a real presentation; practical gaps remain clear.
