Words for costing and review

Design and Technology LAUNCH Spring 2 Week 5 Thursday 25 March 2027 P1 Year A

quantity

How much material is issued or used, with a unit.

unit price

The invented price for one named amount, such as one sheet.

materials cost

The total of the priced material allocations.

estimate

A labelled calculation based on an assumed quantity.

evidence

Real work or an observation that supports a claim.

presentation

Explaining work to an audience in an agreed form.

Sentence starts

Foundation: I priced ___ at ___ per ___.

Middle: My total is ___ because ___. This is actual allocation / an estimate.

Higher: My evidence shows ___. I still need ___. The asking price difference is not net profit because ___.

Rehearse in any language. Keep the unit beside a quantity. Read scribed words back for correction.
