Words for reading hazard records

Tuesday 2 March 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 2 Week 2 | HUM-LAUNCH-S2-W02

White paper version. Read quietly, point, write, type, speak privately or direct a scribe who reads your words back. You may pass. No public answer or reading aloud is required.

Keep this mat nearby. An adult can explain one word at a time. No reading aloud is required.

Word	Meaning
catalogue	A record that lists observed events.
snapshot	A copy kept from one point in time.
UTC	A shared standard for comparing times.
magnitude	A reported measure of earthquake size.
depth	Distance below the surface, in km.
latitude	Position north or south of the equator.
longitude	Position east or west of zero longitude.
equator	The line at zero degrees latitude.
impact	An effect on people, places or services.
recent	From a near past period, with its date stated.
historic	From an earlier period in the past.
evidence	Information used to support or question a claim.

Useful links: the field shows; the value is; compared with; this supports; however; we would also need. Plan in any language. These records describe past events, not future predictions.
