Words for first aid and staying safe

Use these words for the invented cases. Ask for a word to be read. Plan in any language.

Word	Meaning
Unresponsive	Not responding when someone checks for a response.
Normal breathing	Regular breaths, rather than gasping or abnormal breaths.
Recovery position	A side position that helps keep the airway open when a person is unresponsive but breathing normally.
Boundary	A limit that protects a person's needs, comfort or safety.
Commitment	A promise shown through steady, caring actions.

A sentence frame

The story shows ___. This matters because ___. A safe next step is ___. The character can ask ___ for help.

Help and a pause

A character can tell a trusted adult or the safeguarding lead privately. If the first adult is away or does not help, try another trusted adult. If there is danger now, get urgent help. No one needs to prove a worry before asking for help.

Use the agreed pause signal. No public reason is needed. An adult supports the agreed supervised route, a neutral task and a supported return. A learner may pass, observe or catch up privately. Keep supervision in place.
