My work and next step

Friday 18 December 2026 · one 40-minute lesson · Year A

Term theme: Identity & Belonging

Thread tags: SMSC S/So (M/C: none); British Values IL/MR (D/RL/T: none).

Objective
Add evidence to my independence portfolio.

Source: scheme_references/BUILD_SOW.xlsx; BUILD Weekly - Autumn, C143. Independence / vocational strand; Friday slot confirmed by the owner.

Big question and success checks
What does my work show? What will I try next?

Choose real work from this term. Show my part and the help I used. Keep the work and plan a next step.

Evidence
VOCATIONAL-BUILD-A2-W07-E1: An individual portfolio review linked to actual earlier work by code, original date and storage reference; the learner’s contribution, support and initial explanation, a six-week evidence audit, a separate response to feedback and an agreed next step with a review date.

Prepare
Before teaching, gather each learner’s available work and dated observations from Weeks 1–6. Check ownership, original dates and storage references. Start the six-week audit without pre-judging the learner’s review. Provide the usual aid, folder, evidence sheet and support cards. Keep peer records private. Plan short individual review turns during slides 6–8; learners waiting can look through their own work. If there is no earlier work, prepare a gap record rather than a model answer or replacement practical task.

Calendar and progression
Year A. Autumn 2 Week 7: 14–18 December 2026. Friday 18 December 2026, one 40-minute assessing lesson. No clock time is specified. Weeks 1–6 were formative; Week 7 gathers and reviews their evidence.

Week 7 gathers and reviews the evidence from Weeks 1–6. Use actual earlier work and dated observations. No new practical task is introduced. The community-project strand is not used.

Careers
This helps me show what I can do and plan my next step.

Teaching sequence

Slide	Min	Teaching action
1	0	Introduce the assessment, theme, question and careers line.
2	3	Offer the usual aid, pause and calm work space.
3	4	Gather available earlier work by code and original date. Keep gaps visible.
4	0	Read the objective and review checks without modelling an answer.
5	3	Explain first responses, access help, content cues and later feedback.
6	8	Each learner chooses a piece. Check ownership, original date and the linked record.
7	8	Take the learner’s first explanation of their action and help. Record the exact response.
8	6	Add or cross-reference actual work. Check location and finish the six-week audit.
9	6	Give one specific feedback point. Record the later reply and a dated next step separately.
10	2	Confirm one work reference, next step and needed help.
11	0	Use the familiar words to support access. Record any content cue.
12	0	Hidden staff brief: truthful evidence, individual review and clear gaps.

Review and feedback

Before feedback, ask the learner to point to a part of the selected work that supports their explanation and describe the help used. Compare the explanation with the actual record. If a date, ownership or action is uncertain, record that uncertainty and a retrieval action. After the first record is secure, give one specific feedback point and keep the later reply separate. No answer model or re-teaching occurs before the initial review.

Routes

Supported: Offer one verified piece at a time and read the same review prompts. Allow pointing, an aid and exact scribing. Record access help separately from a supplied explanation, reduced choice or content cue. Preserve the first response and record any later supported reply.

Independent: Choose an available piece, explain the learner’s action and help used, then file or cross-reference it with the original date. Record any actual help. Respond to feedback and agree a next step.

Aspire: Use the same review. If two suitable pieces exist, compare their support for one claim or identify a gap between them. Explain the next step from that comparison. No extra piece is required when none is available.

Assessment and evidence

Boundaries and practical support

Use only each learner's own existing work and records. No food preparation, cleaning chemicals, sharp tools or new practical task is introduced. Staff manage confidential records and final storage. A learner can point, speak, draw, write, use an aid or pause. Do not invite private family details. Missing or unobserved evidence remains a gap. A recollection is recorded as a recollection until supported by a work sample or dated observation.

Take an individual first explanation: what did the learner do, what supports that claim, and what help was used? Accept a point, aid or exact scribed response. Cross-check with the earlier record. Do not credit adult work to the learner or infer a practical skill solely from today's recall. Keep content cues and later replies separate. If no individual turn fits, mark not observed and plan a dated review.

Keep missing work and unobserved responses as gaps. Record original dates, today's review date, access help, content cues and adult actions separately. A group answer is not individual evidence.

Evidence and feedback

An individual portfolio review linked to actual earlier work by code, original date and storage reference; the learner's contribution, support and initial explanation, a six-week evidence audit, a separate response to feedback and an agreed next step with a review date.

Use VF · WS · I · NS+ (Yellow Box) · // self-edit · ? read back · R responded · E evidence. R requires Voice, Audience, a specific NS+ prompt and the learner response in their own colour. E is used only when actual work is banked. Keep the first record unchanged and the later response separate.

No qualification mapping, attainment level or completion is inferred. Staff confirm any mapping from actual evidence.

Voice, theme and threads

Offer speech, pointing, drawing, writing or the usual aid. Ask what help makes the task accessible. Respect a pause without requiring a reason.

S: reflect on a personal contribution and next step. So: explain earlier work and listen to feedback. IL: choose a response mode and ask for support. MR: allow time and respect access needs. No other thread is claimed.

Communication portfolio

A task explanation or help request may be offered to the Communication portfolio. Keep the learner's actual response and support; staff confirm any mapping.

Reflection

Next teaching need: _____

Learner request and change made: _____

Provenance: inspected weekly scheme line and the owner's strand, date and Friday-slot decision. Activities, examples and careers lines are newly authored from the objective.
