

Test rock hardness and water

Today I can... ☐ I can show a safe mark test. ☐ I can watch where drops go. ☐ I can tell what I saw.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Arrival

Point to a safe rock.

My response

Starter

Think back. Say, sign or point.

1. How can we sort two rocks?

2. What can we do with a clean tub?

3. Name one body part that helps protect organs.

Test rock hardness and water

My response

Test rock hardness and water

Today I can... ☐ I can show a safe mark test. ☐ I can watch where drops go. ☐ I can tell what I saw.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Independent H

Why use the same tool and drops?

This is fair as I kept _____ the same.

My response

Go deeper

Could a hard rock also let water through? Use each test result.

My response

A drop slides off. How will you fix the test?

My response

Exit

Tell an adult what you saw.

My exit response

Read it back: I am learning to test a rock in two ways.

My feedback was... I showed...

Next I need to... try one small fix.
