

The shapes of Sun, Earth and Moon

Today I can... ☐ I can choose a ball to model a round body. ☐ I can turn it to show more than one side. ☐ I can name one limit of a model.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Arrival

Sort a coin, paper circle and ball: flat or solid?

My response

Starter

Think back. Say, point or write one answer for each question.

1. What makes day turn to night at one place?

2. What goes around the Sun?

3. Name one force you have explored.

The shapes of Sun, Earth and Moon

Today I can... ☐ I can choose a ball to model a round body. ☐ I can turn it to show more than one side. ☐ I can name one limit of a model.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Talk-then-sort

Use a ball and a paper circle. The model and first label are ready. Turn the ball and complete the missing label: new side or the same flat face?

Ball → turn it → see ____ → useful because ____.

Choices: flat · solid

Card or step	My group or match
Paper circle	
Coin face	
Ball	

Turn a shape model. Explain one way it helps and one limit. You can show, say or draw.

Independent F

Choose a ball rather than a flat circle.

I choose the ____ to show shape.

My response

Independent M

Turn the ball and explain what new view it gives.

When I turn it, I see ____ because ____.

My response

The shapes of Sun, Earth and Moon

Today I can... ☐ I can choose a ball to model a round body. ☐ I can turn it to show more than one side. ☐ I can name one limit of a model.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R _____

Independent H

Explain what a ball model reveals and how its scale may mislead.

The model helps because ____; its limit is ____.

My response

Go deeper

Compare a ball and a photo. What can each show, and what does each hide?

My response

A photo shows Earth as a circle. Choose another observation or model to test its full shape. Explain why one photo is not enough.

My response

Exit

Show which shape model helps. Say one way it helps and one thing it cannot show exactly.

My exit response

? Read it back: show how a ball models the Sun, Earth and Moon.

My feedback was... say what changed. Next I need to... name a fix.

Word help

Word	Meaning	Example	My language
spherical	shaped roughly like a ball	Earth is approximately spherical.	
curve	a line or surface that bends	The ball has a curved surface.	
shadow	a dark area where an object blocks light	The ball makes a shadow on the card.	
model	a simple way to show an object or idea	A ball is a model of Earth's shape.
