Teacher and cover guide

Autumn 2 · Week 2 · Lesson 2 · Tuesday 10 November 2026 · 40 minutes

Join our group part

I can join a group part and keep the beat.

Second practice lesson for the Week 2 outcome. Group playing is a classroom practice task. Observe each learner's own entry, rests, repeat and stop; do not infer that a wider event or the award has been completed.

Success: I can start after a clear count-in. I can keep my part for two rounds. I can watch the cue and stop with the group.

Timed flow

Minutes	Stage	Teacher action
0–5	Arrival	Retrieve the last next step; show four beats and a full rest; choose a role.
5–8	Starter	Compare the duration of A and B. Count all four spaces, including each quiet rest.
8–14	I do	Model aligned parts, one count-in, two rounds and stop; check each pupil's understanding.
14–22	We do	Play A and B with full cues for four minutes; use the hinge and fade one cue for four minutes.
22–37	You do	22–28 practise a chosen route; 28–34 observe each pupil, give a next step and retry; 34–37 check the record and tidy.
37–40	Exit	Each pupil names or shows their part, how they kept time and one next aim.

Learning and evidence

Join two original four-beat parts using a shared pulse. A whole-group sound is not enough evidence for every pupil. Watch entry, maintenance of quiet rests, repeat and stop individually. Fade the count or pointer as each pupil becomes secure. Log actual participation and a response-led improvement at A page 2. The lesson contributes evidence for the award but is not an automatic part judgement.

Give one next step. Respond in the same colour, on the same page or usual mode. Record R only after Voice and Audience are present, one NS is set, and the pupil responds.

Kit and room set up

Autumn 2 · Week 2 · Lesson 2 · Tuesday 10 November 2026

Quantities support five learners plus an adult model.

Item	Quantity
A and B four-beat parts	6 pairs; A = TAP TAP TAP TAP; B = TAP REST TAP REST
Large aligned group score	1 model showing both parts under beat numbers 1–4
Soft surfaces or quiet movement space	6 safe, comfortable positions
Four-step and word pages	5 sets plus 1 large model
STOP and count-in cue cards	1 large STOP card and 1 count-in strip
Two-round count cards	6 pairs marked round 1 and round 2
Pencils and blank evidence records	6 pencils; 5 records with unfilled codes
Quiet role choices	Player, pointer or visible pulse keeper; 5 choices
Staff observation page	Blank date, pupil code, actual help and next-step fields

Before the lesson

Retrieve each pupil's first attempt and next step from lesson one. Set A and B under the same numbered beat row. Practise STOP before starting. Use a pair and a trio, with each learner choosing a player, pointer or pulse role that still shows timing. Rotate roles so every pupil has a checked attempt. Keep the volume low and confirm the quiet option.

Save and tidy

Use minutes 34–37 to play the last checked two-round attempt, capture one personal comment and note the actual support. Let pupils confirm scribed words. Store the chosen record at A page 2; update only actual evidence. Return cards and mats. Keep the next aim available for later rehearsals.

Access and group care

You can tap, point, sign, nod or use a quiet hand move. Ask for less sound or a pause. Use your usual way to show what you know. Agree a quiet volume and a clear stop signal. Offer silent beat tracking. Do not require personal disclosure, recording or a public performance.

Demonstration and planned support

Autumn 2 · Week 2 · Lesson 2 · Tuesday 10 November 2026

The demonstration is an original teaching model. It is not a pupil record.

0–15 seconds Choose

Place A and B side by side with aligned beat numbers. Say: “A taps on all four beats. B taps on one and three. Each line lasts four beats.”

15–30 seconds Watch

Give a four-count. Use one hand to tap A and point through B with the other, or ask a second adult to play B. Keep the volume low. Say: “We use the same pulse.”

30–45 seconds Join

Play both lines for two rounds. Count beat positions aloud at first, then fade the count. Say: “B is quiet on two and four, but the beat goes on.”

45–60 seconds Stop

Show a flat hand after the second round and stop. Model a missed entry, wait for a new count-in, then start again. Say: “If I lose my place, I watch, wait and rejoin at the next one.”

Planned adaptations

Cognition: Use four large numbered spaces. Show one step, repeat, then fade the pointer.

Communication: Pair each word with a gesture. Accept sign, point or speech. Give wait time.

Semh: Predictable start and stop; quiet sound; partner practice; pause and rejoin at a new count-in.

Sensory: Soft finger tap, nod or pointer. Position the strip within sight and reach. Sound is optional.

Eal: Plan in any language. Use the same word, symbol and action. Invite a short stem or demonstration.

Five a day: Explicit instruction: model a four-beat part and say the thinking aloud.; Scaffolding: number four spaces and point to the first beat, then fade the help.; Cognitive and metacognitive strategies: count, try, check the gaps and choose one change.; Flexible grouping: use a pair and a trio, then swap roles without changing the learning goal.; Technology: use an optional work-only replay if already available; live observation gives the same access and no recording is required.

Speaking frames: My part was ___. I started when ___. At REST I ___.

Check and respond

Autumn 2 · Week 2 · Lesson 2 · Tuesday 10 November 2026

Common mistake	What to do
The pupil copies the other part and loses their own	Return to the pupil's A or B strip. Ask for a point through it while a partner plays. Add the pupil's movement only after a new count-in.
A pupil tries to catch up with fast taps	Stop gently. Say "watch, wait, next one". Give a fresh four-count and start a new round. Do not fill the missing beats with extra taps.
The group ends at different times	Agree two rounds before starting. Count the rounds with two fingers and show the flat hand at the end of round two. Fade extra cues when pupils are ready.

Checks and decision

Cfu: After I do, ask each pupil to point to the first tap after the count-in and show the STOP cue. Correct: start on the next one after four preparation counts; stop at the agreed flat hand. Remap the sequence if the pupil starts during the count-in.

Hinge: At We do 2, show A and B aligned. Ask: "A plays four taps. B has two taps and two rests. Do they end together?" Choose A: yes, if all four spaces stay even; B: no, B ends after two beats. Correct A. If every pupil keeps four spaces and starts together, fade one cue. For any pupil choosing B or rushing, point through both lines at one speed and retest before fading support.

Hinge parallel: Retest with B changed to REST TAP REST TAP. Ask: "Does this still last four beats?" Correct: yes. The rests take their full time. Watch the pupil point through all four spaces before rejoining the group.

Hinge decision: All correct in choice and timed action: move on and fade one cue. Any error: remap four even spaces, model once, retest that pupil.

Questions with thinking time

F: Point to your part and show its first beat.

M: Show where you rest while A taps.

H: Why can the two parts stop together with different numbers of taps? Invite a private or paired response first.

Evidence and response

What helped you join and stay with the group?

A_Take_Part.pdf · page 2. Give one next step. Respond in the same colour, on the same page or usual mode. Record R only after Voice and Audience are present, one NS is set, and the pupil responds.
