Teacher and cover guide

Autumn 2 · Week 2 · Lesson 2 · Wednesday 11 November 2026 · 40 minutes

Join parts and improve together

I can keep my part with another part and use feedback to improve.

Small-group rehearsal with two original parts. Keep actual individual contribution and response to feedback; no staged public event or award result is inferred.

Success: I can enter after the shared count-in. I can keep my part while a different part plays. I can use one comment and show the effect on another try.

Timed flow

Minutes	Stage	Teacher action
0–5	Arrival	Retrieve A, rest length and the real next step; rehearse stop cue.
5–8	Starter	Read aligned A/B scores. All identify the shared tap and justify.
8–14	I do	Model joining, quiet recovery and response-led retry; check understanding.
14–18	We do	Practise each part alone, then join two repeats with a shared count-in.
18–22	We do 2	Use hinge B about recovery, re-model if needed, then the parallel check.
22–34	Independent	Rotate roles in pair/trio. Keep a personal part, use one comment and retry.
34–37	Review	Read back individual evidence and compare actual attempts.
37–40	Exit	Show rests, explain safe re-entry and identify one effect of feedback.

Learning and evidence

Keep an individual note for each pupil even when the sound is shared. Observe a chosen part, common count-in, maintained full rests, any recovery and one response-led retry. The score and real comment can support taking part within the award. A group recording alone does not identify each learner's understanding; use a brief individual explanation or checked choice.

Give one next step. Respond in the same colour, on the same page or usual mode. Record R only after Voice and Audience are present, one NS is set, and the pupil responds.

Kit and room set up

Autumn 2 · Week 2 · Lesson 2 · Wednesday 11 November 2026

Quantities support five learners plus an adult model.

Item	Quantity
Part A and part B four-beat scores	5 individual choices; 1 aligned class pair
Count-in and beat-1 re-entry cards	1 large set and 5 small cues
Quiet tapping surface or silent pointing choice	5 comfortable spaces
Player / pulse keeper / listener cards	1 pair set and 1 trio set
One chosen route card and word mat	5 sets
Pencils and book space	6 pencils; individual books
Group practice record and evidence slip	5 blank individual records
Quiet option and stop cue	1 calm space; visible red STOP card

Before the lesson

Retrieve each pupil's actual first-lesson score and next step. Place A and B in aligned beat columns. Agree low volume and roles before sound starts. In the trio use player A, player B and listener/pulse keeper; rotate all roles. In the pair, an adult briefly keeps the pulse while both parts join, then fades. A pupil may direct or point a part silently. Keep code and judgement fields blank.

Save and tidy

Use minutes 34–37 to check each pupil's personal contribution, listener comment, chosen next step and actual retry. Read back exact scribing. Return cards and keep the score beside the real record in the arts log. If a pupil did not retry, record that honestly and plan the next opportunity.

Access and group care

You can tap softly, point, sign, speak, draw or write. Ask for a pause or a quiet space. Follow the stop cue. Agree a quiet volume and a clear stop signal. Offer silent beat tracking. Do not require personal disclosure, recording or a public performance.

Demonstration and planned support

Autumn 2 · Week 2 · Lesson 2 · Wednesday 11 November 2026

The demonstration is an original teaching model. It is not a pupil record.

0–15 seconds Recall

Show A: TAP REST TAP TAP and B: REST TAP REST TAP. Point down the same numbered column in both scores. Explain: “The parts differ, but the beat positions line up.”

15–30 seconds Join

Give a shared 1, 2, 3, 4 count-in. Play A while the adult helper points B silently. On a second cycle the helper taps B. Keep the common pointer steady.

30–45 seconds Listen

Model losing the place without blaming anyone. Stop your sound, follow the boxes silently and rejoin on the next beat 1 cue. Do not race to catch up or interrupt the other part.

45–60 seconds Retry

The listener says: “The shared tap on beat 4 came at two times.” Choose: “We will watch beat 4 and keep the pulse.” Try both parts again, then ask whether the tap coincided. This is a class model, not recorded pupil progress.

Planned adaptations

Cognition: Teach one four-beat chunk. Model, practise together, then fade voice and pointing while keeping the score visible.

Communication: Pair words with TAP, REST, WAIT and STOP symbols. Allow processing time, signs, pointing and checked scribing.

Semh: Agree turns and a quiet stop cue. Offer a trusted partner, silent role, pause and return. No forced solo.

Sensory: Use soft taps or silent directing from a stable position. Avoid painful actions or loud objects. Offer a quiet space.

Eal: Model terms with actions. Plan in any language. Check meaning through a demonstration or confirmed choice.

Five-a-day: Explicit model; count-check-retry strategy; numbered-box scaffold; flexible pair/trio; static visual teaching aid.

Speaking frames: My part had taps on ___. We shared the pulse by ___. The listener noticed ___.

Check and respond

Autumn 2 · Week 2 · Lesson 2 · Wednesday 11 November 2026

Common mistake	What to do
A player copies the louder or busier part	Reduce the other part's volume or point it silently. Track the chosen score with one finger. Add the other sound only when the pupil can maintain the pattern.
The player speeds up to catch a lost place	Keep following the pulse silently. Offer a clear next-beat-1 cue and rejoin there; accept that recovery as a skill.
Feedback is only "good" or "bad"	Ask for an observable detail: start, rest, shared tap or repeat. Set one feasible next step, hear the response and compare another attempt.

Checks and decision

Cfu: question: A rests on 2. B taps on 2. Should A add a tap there to match B?; answer: No. A keeps its silent beat while B plays. Both still follow the same pulse.; decision: If all can keep the different actions silently, join the sounds. If anyone copies, lower volume, separate parts and add sound gradually.

Hinge: question: You lose your place while the other part continues. A: Play faster to catch up. B: Follow silently and rejoin on the next 1 cue. C: Make the other part stop.; answer: B. Keep the shared pulse and use a clear re-entry point.; decision: All choose and then show it. If every pupil can demonstrate B, move to independent practice. Otherwise rehearse a silent lost-place example, cue the next 1, then use the parallel hinge.

Parallel hinge: question: A player misses beat 3. The pulse continues. Where can they safely rejoin after following silently?; answer: The next beat 1 cue, keeping the same pace and their chosen score.; decision: Observe the re-entry, not a spoken answer alone. Retain a visible cue and log support where needed.

Questions with thinking time

F: Point to a rest in your chosen part.

M: How can different parts share the same pulse?

H: What evidence would show that a retry improved the group timing?

Evidence and response

What helped you keep your own part, and what changed on the next try?

A_Take_Part.pdf · page 2 · Week 2 group practice and response. Give one next step. Respond in the same colour, on the same page or usual mode. Record R only after Voice and Audience are present, one NS is set, and the pupil responds.
