Fictional project cards

Year A | Autumn 2 · Week 2 | 9 November 2026

Choose your made-up maze card. Update both score variables from two game events. Use the rules below. Do not invent personal names, places or external accounts.

Source A A space maze project

Event rules: Touch fuel pod -> change FuelScore by 1. Touch laser wall -> change HazardHits by 1.

Reset rules: Return player to start pad after a hazard hit. Keep both scores set to 0 on start.

Extra rules: Check the variable drop-down on each change block. Stretch event: touch finish gate -> change FuelScore by 5.

Source B A deep-sea maze project

Event rules: Touch pearl shell -> change PearlScore by 1. Touch reef spike -> change ReefHits by 1.

Reset rules: Return player to start pad after a hazard hit. Keep both scores set to 0 on start.

Extra rules: Check the variable drop-down on each change block. Stretch event: touch finish gate -> change PearlScore by 5.

Plan before you build

Choose card A or card B. Match each touching event to the right change block and variable name. Keep the finish bonus for the Aspire route.

I used change instead of set because ...
