Purpose and success checks

How can photos and words show what I actually made?

I can select records of my own process. I can add clear and truthful captions. I can use a result to suggest an improvement.

LAUNCH-DT-W5-E1: A process record with three authentic stage references/captions, ownership/support notes and a design evaluation linked to an actual result; missing records clearly labelled.

Before pupils arrive

Retrieve W2 plan, W3 model and W4 test record. Use approved school camera/storage and work-only images where permitted. Provide print copies or allow labelled drawing/work references. No new build or load test is required.

Offer processing time, a quiet start and the usual communication support. Capture each learner’s own work. Read the Staff Answers before teaching.

Calendar and continuity

Monday 30 November–Friday 4 December 2026. One lesson per week on this line. No teaching day or clock slot is inferred.

Staff enter the actual teaching date above. Continue the accepted prior-week evidence and support routines.

Forty minute sequence

Slide	Min	Action
1	0	Open title and big question before timing.
2	4	Private check-in, quiet start and support choice.
3	2	Read the diagram; hear one clue or question.
4	0	Read the exact objective and success checks.
5	5	Model the six lines; explain the reason for each.
6	5	Ask for a hinge answer and reason; reteach if needed.
7	12	Use the six cards and the Supported/Independent/Aspire routes.
8	6	Complete the individual two-page evidence record.
9	4	Check ownership, support, response and next step.
10	2	Take a short quiet exit response.
11	0	Use the vocabulary mat throughout.
12	0	Hidden reference for adults.

Hinge and reteach

B. Use the actual plan, work or teacher record and state what is missing. A new demonstration may be photographed only if labelled as a later demonstration with who did it. C misattributes work. Reteach by matching a real sample record to a truthful caption.

Access and practice

Supported: match records to stage labels. Independent: add what, who and result. Aspire: explain a limit in the evidence.

Sort real records into plan/build/test. Learners caption each and link an actual result to an evaluation. Staff check ownership and assist photography if authorised, without inventing a missing stage.

Begin evidence during practice and finish during capture. Accept speech, pointing, drawing, writing or usual AAC. Scribe exact words without supplying the assessed reason. No forced pair work or public performance.

Safe teaching evidence and learner voice

Boundaries

Do not photograph pupils or personal labels without the setting permissions. No personal devices, public uploads or copied peer evidence. Keep any later demonstration labelled with date and author. Staff handle file/storage steps under local rules.

Assessment and feedback

Check that plan/build/test captions match the supplied work and who did each step. Accept a drawing or work reference when a photo is unavailable, accurately labelled. The evaluation states what worked or did not, cites an observed result and proposes a reasoned change. No fabricated photo, date or load result.

Retain actual work, response mode and support. Use VF · WS · I · NS+ · // (self-edit) · ? (read back) · R (responded) · E (evidence in the school's evidence record). R requires Voice, Audience, an NS+ prompt and the learner’s response in the same colour, on the same page or usual mode. Record E only after evidence is banked. Blank forms and adult models are not completed learner evidence.

Lundy moments

Space: calm, accessible participation. Voice: a choice, reason or help request. Audience: the adult listens or reads and replies. Influence: record the support or next-step change made in response.

Speaking listening and writing

Describe a process step, explain a result and write an evidence-based caption. The receiving teacher maps authentic responses to their own portfolio; no communication criteria are assigned here.
