Staff answers and response guide

Present my model and next step

These are possible responses and task guides, not learner observations. Accept a defensible answer based on the facts or actual work. Record each learner's reasoning and support.

Card key

Card	Judgement or step	Possible action
A	Show. The audience needs to know the product.	State whose work it is and what it was for.
B	Process. The making step has an owner.	Describe the step and any support.
C	Result. The result should match observed work.	Say what happened and when the test stopped.
D	Reason. The proposal needs evidence.	Link it to the result and explain how it might help.
E	Listen. A real question needs a response.	Reply, clarify it or say what needs checking.
F	Access. The presentation mode is a barrier.	Use a quiet adult audience, note, pointing or AAC.

Model and hinge

Fictional example: My model is a card bridge. I folded the sides; an adult held the ruler. The test note says the centre bent. I would try a folded edge to support the centre. Question: Will it hold any load? Reply: I cannot say. A fair retest could check the proposed change.

B. An improvement is a reasoned proposal until it is checked. A and C overclaim strength. Ask the learner to link the proposal to an observed result, then say how a later comparable test could check it. No new load test is required in this lesson.

Individual evidence key

Require product purpose, one actual making step with support, real test observation or honest not-tested statement, and a linked improvement. Record the real audience and exchange. Accept quiet one-to-one, notes, pointing or AAC. A prepared script without an audience exchange is preparation, not evidence of a delivered presentation.

Feedback boundaries and next teaching

Card A: A staff-made substitute must be labelled; do not claim it as pupil making.

Card B: Scribe exact learner words where needed.

Card C: Do not invent a successful test for presentation.

Card D: No guarantee of greater strength is made.

Card E: Do not fabricate the audience question in advance as a learner result.

Card F: No forced performance; record the chosen mode and support.

Common misunderstandings

Presenting need not mean public speaking. An honest limit is stronger evidence than an invented success. An improvement remains a proposal until tested.

Teaching boundary

No forced group presentation or video. Share work-only records under local rules. A question can be answered with “I need to check”. Do not use public uploads or personal accounts.

Feedback

If a reason is missing, return to the fact or actual work. Re-model a different example, then keep the learner’s own revision. Use NS+ and the learner response, in the same colour, on the same page or usual mode, before R. E means evidence actually banked. Keep safeguarding records separate.

Assessment boundary

LAUNCH-DT-W6-E1 contributes to the source assessment. No criterion, registration or award completion is invented. Sources: FACTS_LEDGER.md.
