Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

Knowledge organiser

I am learning to… check a source and share a fact about the Solar System.

Earth orbits the Sun. The Moon orbits Earth. Paths and sizes are simplified; not to scale.

Picture colours: yellow Sun, blue Earth, grey Moon, grey and purple orbit paths.

Solar System: the Sun and the objects that move around it

planet: a large, nearly round body that moves around a star

star: a hot body in space that makes its own light

source: where a fact or idea comes from
