Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

TA brief

Before the lesson: prepare three large source cards and desk mat. Check local risk assessment and exact kit. Keep loose cards on the mat.

No cold calling. A pupil may pass. Read any line the pupil cannot access. Record prompting separately.

Prompt ladder

1. Point to the relevant place / instruction.
2. Ask one short question: "What is it asking you to find?"
3. Rephrase the instruction in simpler language.
4. Provide a scaffold or limited choice.
5. Model the first step only, then return the task to the pupil.

Arrival 5 min: offer a predictable seat or standing spot and first visual cue. No public test.

Starter 3 min: ask all three low-stakes questions. Confirm actual prior coverage.

I do 5 min: model a full claim/source match, teach four words and ask the show-me check.

Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

TA brief continued

We do 7 min: show the part-done example. Allow paired talk. Match each claim to the wording on the card. Include the one-minute reset inside the stage.

We do 2 5 min: all pupils answer the hinge in their agreed mode. Use option-specific diagnoses. Re-model and use the parallel question when needed. Include the quiet minute.

Independent 8 min: one adult supports agreed pupils while the other holds the group. Swap roles across the week. Use the actual staffing plan. Include a one-minute reset within the stage.

Review and improve 4 min: give specific VF and NS+. Receive one changed label or fact after // or ? and record the pupil's own response. Include the quiet minute.

Exit 3 min: hear one checked fact, matching card and label fix. Say how it changes the next example or support. Record deepest prompt and independent evidence separately. Include reset and handoff.
