

# Teesside: Connected World

---

*GROW • Humanities • 40 minutes*

I can describe and explain different global connections, using map and source evidence with a limitation.

Name: \_\_\_\_\_ Date: \_\_\_\_\_

You may write, type, say, sign, point or direct a partner. An adult can read the words and record your exact response. Keep the choice and explanation your own.

## **We do • make a choice and give a reason**

A port website shows a sea route from Teesport to the Netherlands. What is the strongest claim that evidence supports?

- Teesport has a trade/transport connection with a Dutch market or hub.
- Everyone in Teesside regularly travels to the Netherlands.
- The route explains every cultural connection in Middlesbrough.

My choice and the evidence I used:

---

## Resources and independent record

### GROW Humanities • Week 10

40 minutes Autumn 2 • Week 3 • GROW Weekly – Autumn B55:C55 Name:

\_\_\_\_\_ Date: \_\_\_\_\_

#### Enquiry

How can maps and sources show connections without reducing a community to one route or statistic?

#### Independent mission

Build a Teesside connection profile using at least two connection types. Add locations, a route/medium, evidence, one possible local effect and a limitation. Use fictional/composite people unless an individual independently opts into a personal route.

#### Supported route

Complete two safe connection chains from the approved cards and add one 'does not prove' statement.

Prompt frame: \_\_\_\_\_ connects Teesside to \_\_\_\_\_ through \_\_\_\_\_. Source \_\_\_\_\_ shows \_\_\_\_\_. It does not prove \_\_\_\_\_.

#### Standard route

Explain two different connection types with a mapped route, source reference, local effect and limitation.

Method: Place → connection type → route/medium → evidence → possible effect → limitation.

#### Stretch route

Compare operator, census and community perspectives; judge which claim is best supported and what evidence is missing.

Method: Perspective/scale comparison → strongest claim → counterexample or missing voice → qualified judgement.

### Connection locator and evidence cards

Separate source types before making a claim.

TEESSIDE NETHERLANDS MARKET FICTIONAL YOUTH HUB goods / transport • PDP messages / culture • CMP Schematic route model—not distance, equality or cause evidence.

PDP • operator source • adapted factual note: PD Ports describes Teesport as linking road, rail and sea services with markets including the Netherlands and other European areas. An operator promotes its service; this is not a complete social or environmental impact account.

MBC • local-authority statistics • adapted factual note: Middlesbrough Council's Census 2021 summary reports that 12.29% of residents were born outside the UK. Country of birth cannot reveal a person's identity, faith, route or reason for moving.

MBM · fictional composite: A youth hub in another country exchanges messages, music recommendations and project ideas with a Teesside group. This safe rehearsal card is invented; it is not evidence that a real person or organisation did this.

### Connection profile

Describe how communities are connected across the world.

| Connection        | Places +<br>route/medium | Named evidence | Possible local<br>effect | Does not prove |
|-------------------|--------------------------|----------------|--------------------------|----------------|
| Goods/trade       |                          |                |                          |                |
| People/population |                          |                |                          |                |
| Messages/culture  |                          |                |                          |                |

Connection judgement

### Evidence, prompt and response record

A completed sheet does not itself verify a UAS outcome.

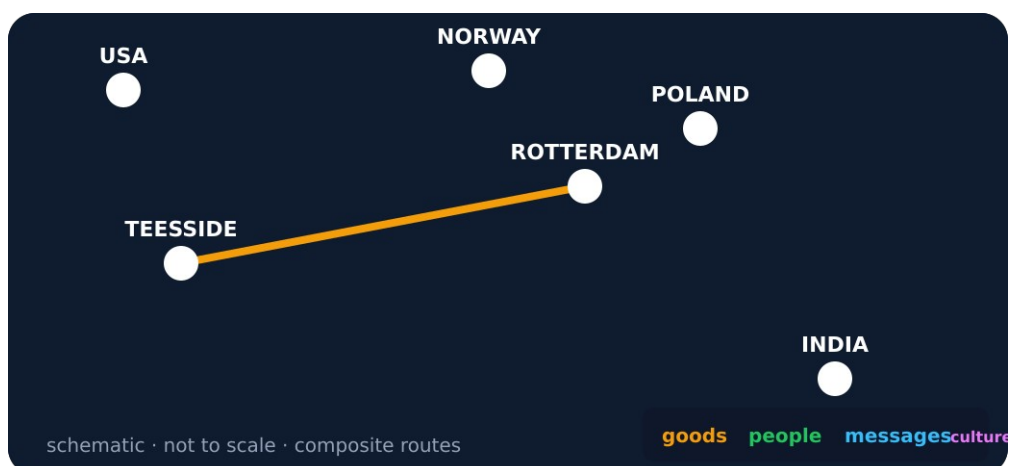

## Paper route • discuss the lesson choices

Use these choices with the matching teaching stage. Point to or number a choice, explain it, then revisit it after feedback. The original HTML keeps the live controls.

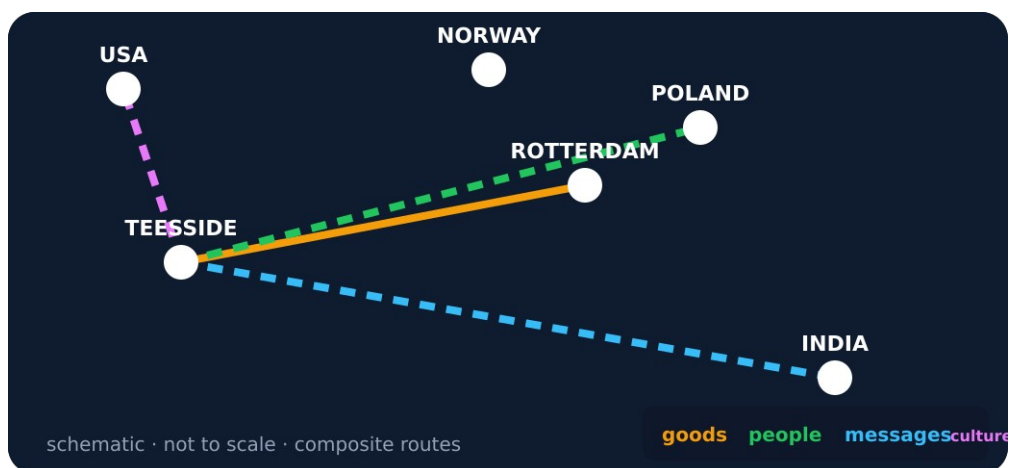

- Steel and chemicals leave Teesport by ship for Rotterdam
- A family moves to Middlesbrough for work in a food factory
- A video call from Redcar to a cousin in Mumbai
- A Polish bakery opens on Linthorpe Road
- Wind-turbine parts arrive on the Tees from Norway
- A school in Stockton emails its partner school in Kraków
- goods
- people
- messages
- culture
- Is this claim too big?
- Goods / trade
- People / population
- Messages / culture

| Choice / card | My reason or evidence | My revision after feedback |
|---------------|-----------------------|----------------------------|
|               |                       |                            |
|               |                       |                            |
|               |                       |                            |

## Visual evidence from the lesson

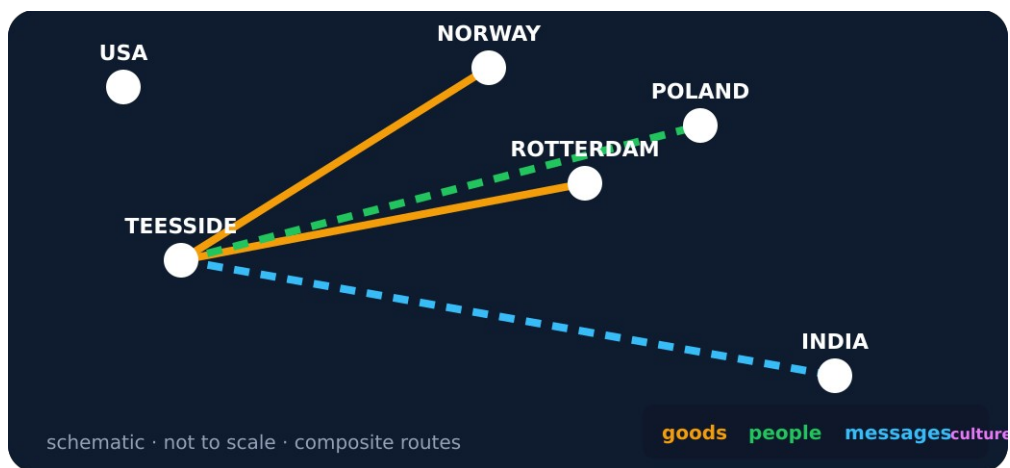

Schematic network with one goods route from Teesside to Rotterdam

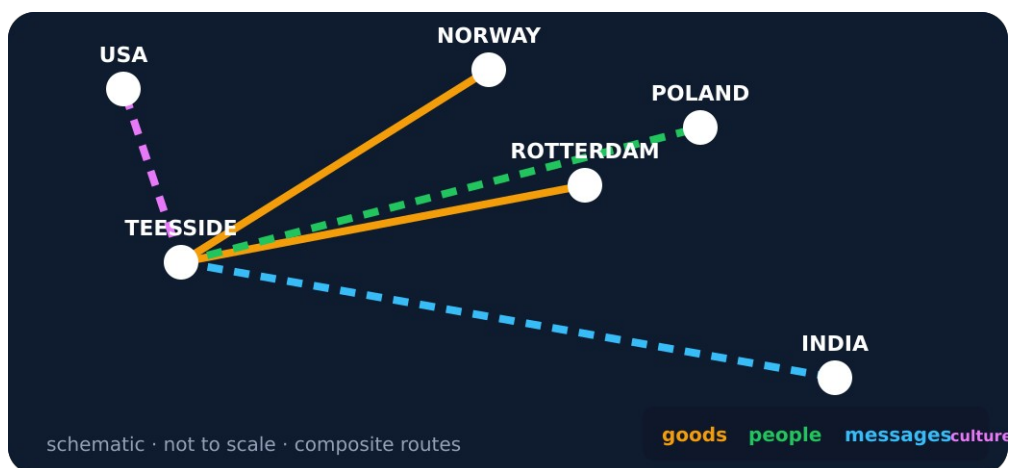

Four route types from Teesside

A single people route

Several routes with a limit note

Schematic network with all four route types

## Exit • one next step

After the adult has listened, what will you keep, improve or check next?
