

Judging climate responses

Knowledge organiser | LAUNCH Humanities

Evaluate responses to climate change.

Words to use

Word	Meaning
mitigation	Reducing greenhouse-gas emissions or increasing their removal
adaptation	Adjusting to actual or expected climate impacts
impact	An effect of a change
evaluation	A judgement using evidence and limits

Method to remember

Distinguish cause, impact and response.

Identify mitigation, adaptation or both.

State a benefit and a limitation for each approach.

Justify a provisional choice using evidence.

My explanation

I choose _____. Evidence from _____ shows _____. This matters because _____. A limit is _____.

Remember

Mitigation targets causes; adaptation adjusts to impacts. Explain a benefit and a limitation. Source: NASA, Mitigation and Adaptation.
